

Aurora 2012: A Manual for Preparedness by Ishtar Antares is a deeply moving and profoundly uplifting book about our soul and our planet's future. Not many seem to understand what 2012 is really about. Yes, 2012 is the end of the cosmic cycle. But it is a time that deep in our souls we have all been yearning for...a marker in time deeply encoded into the very essence of our beings...this is not a prophecy of doom and gloom, but rather an invitation for all of us to experience the birth of something very beautiful... How can we prepare? Let this beautiful book give you many answers to these deep questions.

This is not shallow channeled material as you can mostly encounter in New age circles but rather a deep, precise and transformative message with many practical techniques and never before published information about our origins, Atlantis, twin souls, soul mates, Light body... At the

beginning there is also an interview of the author as to certain important questions.

First part of this book is a collection of cosmic communications which were given by galactic beings of light between 1993 and 1995. These communications give a deep spiritual guidance for the Ascension process. Ascension is the ultimate goal of human evolution, the crown of spiritual growth.

Second part of this book is a summary of instructions for creation of living mandalas. Living mandalas are focused spiritual groups inside which group Initiation and Ascension process is taking place. This part of the book was written between 1996 and 1997. It can be used as a manual for creation of a real living Mandala.

Third part of this book was written between 2002 and 2009 as a result of telepathic contact with the Pleiadians. Small fragment of data was received from other sources also. This part of the book also gives you a detailed outlook of the civilization of light that is living under the surface of the earth. In this part of the book you can also find many interesting facts about galactic wars between light and darkness that can trigger soul memories from times millions years ago when we came to this planet and heal them. Last but not least, in this book you can also receive an enlightened perspective about 2012 and find your place and purpose in the course of events that are ahead of us...

## The Underground Kingdom of Light

In Atlantean times, 25000 years ago, when Earth became a quarantine planet under the occupation of dark forces, one part of forces of light withdrew under the surface and built there a civilization of many cities of light, interconnected with vast system of tunnels. In those Atlantean cities, beings were pursuing their spiritual path under the vigilant guidance of the King of the world, Lord Sanat Kumara. This kingdom of light is known by the name of Agartha or Shamballa and must not be confused with Shamballa which exists on the etheric plane since Lemuria and which served as a spiritual beacon for the underground civilization.

In underground Agartha people lived in harmony between spiritual worlds and advanced Atlantean technology that served for their highest good. Each of them knew his higher purpose and followed it so they lived with each other in harmonious relationships. Until the final deluge of Atlantis they were protected against attacks of the dark forces which have also built their strongholds in certain areas of the underworld since then. After the deluge everything changed. Dark forces began to attack Agartha and as the Tibetan holy book Dzyan said »there were fighting's between builders and destroyers and fighting's for space«. Forces of light were forced to leave many territories which they inhabited before. The system of underground tunnels was encircling the whole planet. The western tunnel network had its beginning under Atacama desert in Chile and went in direction of Tiahuanaco – Cuzco – Mount Shasta – Grand Tetons, under American mainland and under Atlantic ocean towards Atlas mountain range in western Africa and then under Ahaggar/Tibesti mountain ranges towards their final station – the Giza pyramids. One important center was under Mato Grosso region in Brazil, where Agartha had strong connection with Atlantean cities on the surface. The Himalayan network was of extraordinary importance. Here underground civilization developed as a mirror of Atlantean colony which existed on the surface in the area of contemporary Gobi desert. Of course it was no desert then, it was a subtropical paradise. Himalayan network had its source under the Gobi desert and it expanded under Takla Makan desert and then onwards under Pamirs, Altai, Karakorum, Baltistan, under Kunluns and under Chang Tang plateau towards Himalayas.

After the deluge of Atlantis, certain groups on the surface have come across important spiritual and scientific discoveries and have therefore retreated in the underground Agartha from the dark forces which had almost whole surface in their grip by then. These reinforcements have accelerated scientific and technological progress in Agartha and with united forces they have unsealed old Atlantean tunnels, restored old Atlantean machines and expanded original underground spaces in which they dwelt. With those expansions they often followed the course of underground rivers and underground energy streams. Development of technology was outstanding. Beyond old Atlantean crystal technology they were developing teleportation chambers and free energy technology. They have connected their underground cities with trains that used magnetohydrodynamic (MHD) drive, which then reached speeds up to 3,000 mph. They came into touch with the galactic starfleet which has succeeded in rescuing some of them from the quarantine Earth. Resistance movement of the forces of light, which had its starbases on the Moon, Mars, asteroids, moons of outer planets and on planet X was sending in reinforcements all the time.

In time of ancient Greece certain colonists have voyaged across Atlantic to Brazil and US west coast and made contact with Agartha there. Many ancient cultures that vanished without a trace (for example the Mayans) have in fact moved into the Agartha empire. Some Hopi Indians have had contact with Agartha just a few decades ago. In Agartha, Order of the Star was very active. Its purpose is healing of separation on planet Earth and also successful completion of experiment of duality. Kings of Agartha were leaders of the Council of twelve and were a physical anchor for the energies of Sanat Kumara. Certain American presidents and presidents of some other states had contact with kings of Agartha during their term. Agartha often exerted its spiritual influence on the surface, especially the Himalayan network in the region of India and Tibet. Over one thousand years

ago, representatives of Agartha near Gilgit in contemporary Pakistan spread tantric teachings to the surface. In nineteenth century they strongly influenced teachings of Helena Petrovna Blavatsky who had physical contacts with them. In the beginning of twentieth century Agartha had over twenty million members. During WW 1, invasion of the dark forces begun. They wanted to break the power of Agartha. Hordes of warriors of darkness rolled from enormous bases under China, Indonesia, near East and Africa through tunnels across Atlantic towards Mexico and then southwestern US to limit the spiritual influence of Agartha on arising western civilization. There were severe underground physical battles that mirrored on the surface as WW 1 and WW 2. After victory of the forces of light at the end of WW 2, Agartha turned its attention towards spiritual awakening of the West. Forces of darkness turned their attention to annihilation of Himalayan network which reflected on the surface as Chinese occupation of Tibet. Stroke of the dark forces in 1996 weakened Agartha dramatically and in 1999 Agartha was almost erased from its underground dwellings. Therefore at the end of 1999 very strong reinforcement of forces of light came in the shape of the resistance movement fighters from the asteroid belt and planet X. Planet X has a radius of 9000 miles with a surface of frozen methane that gives it a bluish color. Planet X is orbiting the Sun in very inclined elliptical orbit 6 to 7 billion miles away.

Forces of darkness had their maximum power between 1996 and 2003. Outer part of the dark forces are the Draconians, humanoid beings from Alpha Draconis star system. Since Atlantis they have a plan for mass control of human population, named New World Order. They use world politics to create artificial conflicts between nations and ignite wars to gain profit. Their main centers of activity are in Washington, Brussels and Rome. They enslave humanity with programmable biochips that are inserted into human body with vaccinations, and with nanoelectronic devices that control and direct human thoughts. Through their representatives in church, freemasonry and occult groups they control human spirituality and create spiritual conflicts. Their core is so called Illuminati, a chosen group that has control over the System on Earth. Only Illuminati are directly connected with true masters of the quarantine Earth, a race of creatures which was created millions of years ago by the Dark lords of Orion with genetic engineering. These creatures prevent advanced extraterrestrial civilizations access to Earth, holding humanity as a hostage, threatening with nuclear war. They enslave humanity and keep it in quarantine since Atlantis. This race mostly incarnates in humanoid clone bodies, although their true shape is in a form of various mutations of spiders, beetles, insects, reptiles, worms and serpents. Their only motivation is total control over all Creation, spreading malice, terror and dread. They mostly control humanity with implants that create space/time black hole anomaly and thus deface human consciousness to an unrecognizable extent, confusing human mind and emotions. Implants are programmable crystals that were put into physical and energetic bodies of every single human being on Earth with strong electronic devices. The creature race is maintaining distorted space/time structure with electromagnetic space/time chambers similar to those used in Philadelphia experiment. Most efficiently they retard evolution on Earth with threats and violence, spread by their representatives. They are infiltrated in all pores of human society, pretending to be ordinary people. Using unlawful means, threats and violence they prevent meetings between twin souls. In their secret underground bases they have created sexual traumas to many women with horrible rapes, thus blocking the flow of sexual energy on planet Earth. They also created traumas to produce multiple personality disorders, using victims of this process as slaves. Height of their power has fortunately already passed and forces of light are defeating them step by step.

Forces of light are coming to assist in the shape of seventy million members of resistance movement from planet X. They will cause a change of system on Earth in a near future. Old Asian legend says that warriors of Shamballa will come to the surface and destroy the forces of darkness. Resistance movement has developed advanced technology of teleportation chambers, free energy, cloning and biotechnology as a whole. They have their underground cities mostly under bigger cities of Europe and USA. Their cities are interconnected with MHD drive tube-train system with

speeds up to 15,000 mph. Their underground civilization is a successor of the kingdom of Agartha which was almost destroyed in attacks of the dark forces between 1996 and 1999.

The core of the light forces are representatives of Atlantean network. This is a group of few thousand individuals of a very high spiritual vibration that is maintaining the purity of Atlantean legacy permanently since the times of Atlantis itself. Atlanteans have their underground residences on some chosen locations under the Himalayas, under southern California, under some atolls near Tahiti and under Titicaca Lake. They inspire individuals towards their ideals of creating a harmonic society that will be known by the name of New Atlantis.

### **Journey into the Resistance Movement**

The main body of the Resistance movement came to Earth from planet X with the aid of teleportation chambers in December 1999. They have settled down in underground bases that were emptied before in severe battles between the dark forces and the remnants of Agartha kingdom and the so called Organization. The Organization was a forerunner for the Resistance movement and was a leading resisting force against the dark ones throughout the human history. Between 1975 and 1999 they had their main command center about one thousand feet below the underground railway system of New York. When the weakened forces of the Organization were refreshed with members of the Resistance movement they renewed together many underground dwellings and moved their main command center to a new location.

Now the Resistance movement has most of its locations under bigger surface cities between 100 feet and 8.6 miles underground. Most locations are between 150 and 1500 feet underground. All their locations are sealed hermetically and isolated from surface influences, such as viruses, dust, polluted air, micro/nanochips... Dwellings are constructed in a specific way to avoid underground structures which were built by the surface civilization for its needs, such as electric installations, water supply systems, underground railway, mining tunnels, military installations, drinking water reservoirs, oil pipelines and drillings, scientific laboratories, installations and drillings... Some most important Resistance movement centers are located under following cities: New York, Los Angeles, Salt Lake City, London, Munich and Ljubljana (in Slovenia). Locations that are close to the surface are sometimes lit by sunlight which is directed there with a special mirroring system. Locations that are in greater depths are lit with a soft dispersed light being emitted from free energy light chambers. Those dwellings are thermally insulated since surrounding rock has a pretty high temperature when more than few miles underground.

The Resistance movement consists of three concentric circles. The inner circle has few dozen members which are leaders of the Resistance movement. Only those with extraordinary skills and talents and those that are willing to accept great responsibilities can qualify for those positions. The middle circle consists of hundreds thousands of members with special gifts for planning, organization, technology research and development, psychology, medicine, healing, spirituality, creativity, art, music... The outer circle are army forces. They are not soldiers as we know them on the surface but experienced interplanetary fighters who do not fight only with blind force but have reached a high level of spiritual development also. Their purpose is to liberate the surface of Earth from the dark forces and to assist humanity in building a new civilization.

Dark forces are still blocking almost all activity of the Resistance movement on the surface with their military superiority. The Resistance movement has means to remove all disease and poverty of humanity and they will use them when military victory over the dark forces will be achieved. The Resistance movement also has vast financial resources of over 100,000 billion dollars. This monetary mass is now blocked but will be used for benefit of humanity with the victory of the Resistance movement.

Money is not needed inside the Resistance movement since they have technology that brings them

everything they need in life. They use smaller amounts of money for their surface activities, which are not yet very frequent. Everybody inside the Resistance movement does the work he is most talented for. Nobody is forced to work. Every work is done from an inner need for creation. Talents are encouraged and not suppressed as it is the case on the surface. Artists can create new music or excel in painting or sculpture. There are special museums in middle circle of the Resistance movement with objects of art from Atlantis and other high cultures, especially Greco – Roman culture, that serve as a source of inspiration . Everybody from the Resistance movement has access to important pieces of information which are transmitted from the Pleiadian information network. The basic cell of society is not family as is the case on the surface, but soul family, where people meet and mingle according to soul connections they have. Their relationships are much more open, expression of emotional and sexual energies is allowed. Despite all that their relationships are not completely harmonious since the Resistance movement has not yet recovered completely emotionally from severe battles with the dark forces few years ago.

Science and technology are very developed inside the Resistance movement. The Resistance movement is actively cooperating with the Galactic confederation which has its strongholds throughout the solar system. They use teleportation chambers for long distance transportation, especially for journeys towards the asteroid belt and planet X. The Resistance movement uses materialization chambers to materialize whatever they need from the etheric substance. They use those chambers to make machines, equipment, objects for daily use and food. Some people prefer to prepare food in a traditional way – by growing vegetables and cooking. Free energy chambers are the main source of energy inside the Resistance movement and they produce physical energy out of the etheric substance. This technology is recently being replaced with tachyon energy which is not based upon electromagnetic radiation and is a clear source of energy of light. With tachyon receivers it is possible to permeate the physical matter with tachyons so that it becomes an emitter of pure light. This process is called tachionization. By using this process they make wonderful refreshment drinks and change them into an elixir of life, which rejuvenates cells of their bodies. Cloning technology is developed to its perfection and with its aid everyone can choose a physical body according to his taste. People have no health problems except for occasional symptoms that have emotional origin. Eventual problems with inner organs are not removed with operations but with special materialization chambers. Their biotechnologists have developed so called bioskin that can heal up any physical wound in a few moments. With the use of nanotechnology they have developed miniature robots for removal of viruses and harmful biochips. Their computer programmers have broken into the mainframe computer of the dark forces. This computer has a program that controls thinking processes of humanity with a network of micro biochips that are implanted in the brain of every living human on the surface of the planet. A good example of this program is shown in the Matrix movie. When the program in the mainframe computer will be completely broken, the biochip network will begin falling apart and people will realize in astonishment that they have lived psychologically for years in a virtual world without any real contact with themselves, with each other or with nature and the universe. When was the last time that you have been watching the sunset?

Spiritual guidance of the Resistance movement is the Atlantean network. The Atlantean network also consists of three circles. The inner circle are few dozens of priests from Atlantis that have retreated from the surface 25 thousand years ago. They still have the same physical bodies since they have reached immortality. They were completely isolated for all this time without any contact with the surface in order to preserve the purity of their consciousness. They are the last unchanged remnant from Atlantis. They live together on a specific energy point inside the Himalayas and are connected in a special way with the Great White Brotherhood of Ascended masters and with the Lord of the world, Sanat Kumara. Their purpose is to be an intermediary between the world of Ascended masters and the world of unascended human beings.

The middle circle of the Atlantean network consists of few hundreds beings that have contact only

with the inner circle and the Galactic confederation. Their purpose is to preserve the legacy of Atlantis. The outer circle consists of few thousand members that have physical contacts with the Resistance movement and offer them spiritual guidance in the form of a mystery school which is a direct successor of mystery schools of old Atlantis. Sometimes they also influence the surface of the planet by sending spiritual impressions to those humans that are receptive for spiritual guidance from the higher mental plane. In the past some highly developed individuals from the surface were accepted in the middle and outer circle of the Atlantean network. Some of them have already reached their Ascension, some have left the Earth, and some are still part of the Atlantean network. Underground palaces of the Atlantean network are wonderful, adorned with crystals, surrounded with waterfalls and running water. In crystal temples of Atlantean network the legacy of Atlantis is waiting for a time when on the surface it will establish a just world of New Atlantis.

## **Galactic Wars**

Universe came into existence as a result of dynamic tension between the Absolute and contingency. Although the Absolute is eternal, infinite and perfect in the area of meaning, his power is limited with senselessness of contingency as contingency is his logical opposite.

Contingency existed as a potential random wave function, which was manifested into a multidimensional space/time membrane by the will of the Absolute. Universe came into existence inside this membrane. The Absolute intervenes into the universe with his free will (thirteenth ray) which arranges chaotic contingency of the universe into a meaningful whole of twelve rays that represent twelve energetic qualities of the universe. Until recently only seven lower rays, which are quite developed, were known on this planet. But now information about five higher rays is also present. The twelve rays are:

- First ray.....will
- Second ray.....love
- Third ray.....creative intelligence
- Fourth ray.....harmony
- Fifth ray.....concrete knowledge
- Sixth ray.....idealism
- Seventh ray.....manifestation
- Eighth ray.....divine grace
- Ninth ray.....genius
- Tenth ray.....integration
- Eleventh ray....link between dimensions
- Twelfth ray.....absolute positivity

Presence of the Absolute in the universe strengthens positivity and supports evolution whereas presence of contingency strengthens negativity and blocks evolution. Therefore negativity and suffering never have a higher purpose as some people erroneously think. Only good can bring about good. Purpose of the Absolute is to permeate contingency with his presence and to lead the evolution of the universe to a point where all contingency will merge with him. The Absolute has chosen Local cluster of galaxies as a sector in the universe where the most negative part of contingency will be resolved. The archdemons were angelic beings who have chosen to delve into the contingency of matter millions years ago in order to transform it with their consciousness. They were carrying this too far and with mutual implantations they lost their awareness and got lost into darkness. Thus dark lords were created. They began to attack planets, to implant and enslave the population there and to create mutant races with genetic engineering. The Ascended masters have

limited this infection of darkness to our galaxy and M 31 galaxy in Andromeda. The forces of light have gathered their star fleets and began to liberate infected areas. Thus galactic wars began. The forces of light were most successful in Andromeda galaxy and the forces of darkness were running away into our galaxy. Around the Central sun of our galaxy an advanced civilization came into existence which began to create a Galactic network of light. Galactic legend says that Galactic network of light will be soon completed and then all darkness will vanish from the universe. So dark forces had to run away from the area of light in the center of the galaxy into less evolved surroundings. They have chosen a planet of darkness, orbiting a star named Rigel in Orion as their main stronghold. The central point of darkness was a captured angelic being which was changed into a horseshoe shaped deformed creature with a very powerful implantation process.

Success of the forces of light was such that 25 thousand years main area of darkness was limited to a certain sector of the Galaxy named the Local Logos. This is a galactic sector with its centre in the Pleiades and a radius of about one thousand light years. Inside the Local Logos, the forces of light had their main centers in the following star systems: Pleiades, Sirius, Hyades, Betelgeuse, EL AN RA stargate in the belt of Orion, Horsehead nebula in Orion, Vega, M 27 planetary nebula in Lyra, Alpha Centauri, Arcturus, Epsilon Eridani and Tau Ceti. The forces of darkness had their main strongholds in the following star systems: Rigel, Alpha Draconis, Zeta Reticuli 1, Zeta Reticuli 2, Epsilon Bootes, Altair, Capella, and Barnard star. Penetration of the light forces had provoked a violent reaction of the dark forces and a mutiny of various mutant races throughout the galaxy which have decided to change planet Earth into quarantine and to use its population as hostages to stop the light forces.

When Earth became a quarantine, Ashtar achieved his ascension with assistance of his living Mandala and thus opened a door to a project of Ascension waves, which will occur at the victory of the light forces on Earth. Ashtar's ascension was the last act of the light forces on Earth before darkness came in. Ascended masters have left the Earth and Atlantean priests have retreated under the surface. Civilization of late Atlantis was decaying on the surface and nobody could escape implantations that were happening over and over again. Soul consciousness of people sank into oblivion. The Blue lodge of Sirius created the Order of the Star 16,000 years ago to stop the decay of Atlantis and heal the separation but this failed and Atlantis was finally destroyed in June 9564 BCE.

The decay continued although divine dynasties of Egypt tried to preserve the tradition of Atlantis. The Central galactic civilization intervened strongly on Earth 3500 years ago and influenced the rise of high culture on Crete. Due to considerable success of this project, the underground Agartha and the Atlantean network decided to actively intervene on the surface and this caused the prosperity of Greco-Roman culture. The Order of the Star used this opportunity and through Jesus tried to awaken humanity for a possibility of Ascension and to create an awareness of the divine plan of ultimate victory over the dark forces.

Forces of darkness reacted strongly and sent reinforcements from the Andromeda galaxy. That caused the fall of the Roman Empire and started a thousand years of darkness in the middle ages. The cosmic turning point, which was set for 11th August 1999 already 25 thousand years ago, began to draw near.

Around the year 1500, which is one half-millennial cycle before the cosmic turning point, the Atlantean network and the underground Agartha caused the bloom of renaissance. Half-millennial cycle of convergence corresponds with seventy weeks of years from an old biblical prophecy.

Around 1750, which is one half of half-millennial cycle before the turning point, the enlightenment movement began to prosper under the influence of Atlanteans and Agarthians. This movement made an attempt to improve the social condition of humanity. Rapid development of science took place that led towards industrial revolution. Dark forces devised a plan for a New World Order as a reaction to that.

One quarter of half-millennial cycle before the turning point, in 1875, Helena Petrovna Blavatsky

founded the Theosophical society and thus triggered a spiritual awakening on the surface of the planet. It was then possible for the Ascended masters to influence the planetary situation since people were more aware of their existence. True esoteric knowledge, hidden until then, began to spread among people. WW 1 was a reaction of the dark forces on this awakening.

In 1937, which is one eighth of half-millennial cycle before the turning point, the dark forces wanted to prevent a new awakening and prepared WW 2. When this war was over, the light forces have cleared vast sectors of the Galaxy and the Galactic Confederation began to actively intervene in the consciousness of humanity with new teachings and appearances of UFOs.

In 1968, which is one sixteenth of half-millennial cycle before the turning point, a spiritual awakening happened in the shape of hippie movement and the sexual revolution. This was the peak period of American space program, which is the greatest publicly known achievement of Earthlings in the area of space exploration. As a reaction of the dark side a stroke of Andromedan dark forces happened in 1975 which caused a downfall of the hippie movement and almost destroyed the space program. Other consequences of this stroke were not publicly seen, although they were even more painful. Through the intervention of the Absolute on 25th May 1975 a cosmic doorway opened on Earth, which began to transform darkness of this planet.

1/32 of half-millennial cycle before the turning point, at the end of 1983, the Absolute has revealed a vision of the end of linear space/time continuum to certain individuals and thus anchored the time axis of eternity on this planet. On 17th August 1987 hundreds thousands individuals have opened the doorway of Harmonic convergence, which strengthened a connection between the Galactic confederation and Earth. The Absolute has set planet Earth in the center of his attention by opening a dimensional doorway which causes a lifting of planetary consciousness from the third towards the fifth dimension between 1987 and 2012.

1/64 of half-millennial cycle before the turning point, on 11th January 1992, multitudes of star people have opened the doorway of 11:11. Through eleven gates of 11:11 the Absolute will anchor higher aspects of the first eleven rays. Between 1994 and 1996 there was a time window for a possibility for the first wave of Ascension. The probability of success was around 40%

and Ascended masters did everything to make this happen. But incarnated star beings on Earth decided with their free will mainly against the Ascension waves, the key individuals have accepted incorrect decisions and so the critical mass had not been achieved. Whole project was thus postponed to a period after the public physical contact with extraterrestrial civilizations. This will ease decision for many and critical mass will be easily achieved. With the purpose of preventing the entry of humanity into a New age a cosmic stroke of evil forces happened on 11th January 1996. This was the most terrible attack on Earth in the last 25 thousand years. There was a nuclear war on etheric and astral plane that luckily did not spread towards the physical plane, since humanity used its free will to say no to a nuclear war on the physical plane. This cosmic stroke of the forces of evil has almost destroyed light on Earth. All remaining anomaly of the universe was streaming towards the Earth through infected Local logos. Other sectors of the Galaxy and the rest of the universe were being liberated from darkness and were in their final purification. On 17th May 1998 the winter solstice point on the ecliptic has crossed the galactic equator. That only happens once in 25 thousand years so this was the end of the previous and beginning of the next 25 thousand years cycle.

On 11th August 1999 at the total solar eclipse a cosmic turning point occurred in the form of the fourth gate of 11:11. The Absolute transmitted then a special key to the universe, a key called the New heaven. This key is a tool which enables the universe to purify itself from the darkness completely. At the fourth gate of 11:11 this key has completely purified the whole universe except the Local cluster of galaxies.

In December 1999 a mutiny against the dark forces happened on planet X and in few weeks of severe fighting planet X was liberated on 21st December 1999. Many members of Resistance movement have come to Earth into the underground where they are waiting for the right moment to

liberate Earth as well.

By using the key of New heaven the whole Local galactic cluster was purified from darkness on 25th March 2001, except our particular solar system. At the activation of the fifth gate of 11:11 on 19th October 2002 the Absolute began to transmit a new key to the universe, named New Earth. This key is a sub- key to a key of New heaven and is a tool for purification from darkness for planet Earth. Next part of this key was received at the activation of the sixth gate of 11:11 which happened in May 2004.

Harmonic concordance in November 2003 marks the end of absolute rulership of dark forces on Earth which lasted seven years, beginning on 11th January 1996 and reaching its maximal intensity in summer 1999 around the fourth gate of 11:11. These seven years of darkness are mentioned in many old prophecies and have caused ultimate purification of the universe and concentration of remaining darkness around Earth, where it will be cleared until 21st December 2012, when the Absolute will transmit the last part of the key of New Earth.

### **Liberation of the Planet Earth**

Universe, which is now outside this solar system already free from the anomaly of darkness, is governed by different physical laws than in vicinity of Earth. Basic subatomic particles that transmit information there are not photons but tachyons. Tachyons are subatomic particles that have almost infinite speed and therefore enormous energy and are carriers of the thirteenth ray. Photonic universe is limited with the speed of light and is under the influence of anomaly of darkness, contracting into one single spot – planet Earth. With the speed of light as the maximal possible speed of information transmission the picture of the universe that beings receive is inevitably distorted. Therefore people on Earth cannot easily get a clear picture about what is really going on in this universe.

Between tachyonic and photonic universe the Ascended masters have set a tachyonic membrane which transmits subtle signals from liberated universe into photonic form that human eyes and scientific instruments can perceive. Certain tachyons nevertheless reach Earth and bring realizations about higher dimensions and distant worlds to spiritually developed individuals. Certain quartz crystals, certain opals and specifically treated glass can act as tachyon containers and thus increase concentration of tachyons on the physical plane.

There are many energetic membranes around Earth that demark areas of different stages of purification. Closer to Earth we are, more physical and energetic pollution and anomaly is present. The first of those membranes is about 214 thousand miles above Earth surface just inside lunar orbit and demarks the border between interplanetary space of the solar system and sub lunar space close to Earth. At 137 miles altitude there is a membrane which demarks a border between sub lunar cosmic space and upper Earth atmosphere. This is the lowest point of orbits for almost all artificial satellites. There is also a matrix which creates an energy field of twelve zodiacal signs that represent the foundation of astrology since Atlantis. The last membrane is 8.6 miles above the surface and marks the upper edge of influence of the New World Order. This altitude is determined with maximal altitude of commercial aircraft flights. Higher altitudes are almost unreachable for an average individual except for huge amounts of money.

Universe which is liberated from anomaly of darkness is an area of pure light, love and harmony. Its evolution is guided by the Ascended masters in alignment with the Galactic codex. Galactic codex is in line with inner sense of every being which has known the higher reality. All beings in the liberated universe act with their free will in alignment with the Galactic codex which regulates all their relationships so that they never lead to conflicts. Galactic codex enables every being in the universe with the right for divine grace, which is given to evolving beings by the Ascended masters based on power that the masters have over matter which is freed from anomaly of darkness. Every

being in the universe has a right for physical abundance and unlimited spiritual growth which is crowned with the Ascension. Every being in the universe has a right for freedom of movement and a right to be informed about everything in the universe. Every being in the universe has a right to merge with any other being according to closeness of both souls since every being in the liberated universe has chosen Oneness unconditionally with his free will. The One is the future of the universe which leads the evolution of the universe into Oneness with reverse time/space loops. The One is universe as it will evolve in the next cosmic cycle and can be seen as a rainbow structure of amazing beauty by the seer.

In the unliberated sector of the universe the Galactic codex regulates activities of the Galactic confederation in saving humanity. Non-intervention of Galactic confederation is a misinformation, which is being spread by the dark forces. The truth is that the Galactic confederation must be very careful with its actions since the dark forces have taken Earthlings as hostages. The Galactic codex requires fast and effective intervention of the light forces on Earth since many galactic laws are obviously broken by the dark forces, for example with wars, violence, artificially created poverty, hunger, diseases, lack of freedom, censorship of information... This means that Galactic confederation will take over the area of infringement and restore galactic legality regardless of local laws that are currently active on Earth. At a certain point this means that each individual that will refer to the Galactic codex with his free will experience an intervention of the Galactic confederation in his life. When the critical mass of people will make that choice, great social changes will occur. Galactic codex gives a right to every living being for a protection against any negativity from any other living being. Beings of darkness that will choose not to stop spreading negativity when they will be given loving guidance and assistance in spiritual growth will be disintegrated in the Galactic central sun and changed into the basic elemental essence. All other beings will be accepted into the harmonious reality of the liberated universe.

Each individual can contribute towards better circumstances on Earth by supporting the Galactic codex with her/his decision, will and actions. If he supports his/her right for free exit and reentry from/to planet Earth, his/her right to be informed, her/his right for spiritual and physical abundance and his/her right for contact with advanced extraterrestrial civilizations, he/she assists in destroying the implant grid which was created among people in Atlantis in the head area. This implant grid has created the quarantine. If an individual supports her/his right for free flow of love and sexuality he/she assists in destroying the implant grid in the abdomen area which was also created in the time of Atlantis. This implant grid has destroyed almost all man/woman relationships since Atlantis. By destroying this implant grid we can create harmonious relationships and abundance on Earth. The system of New World Order is based on control of sexual and emotional energy. There are many beings of darkness on the astral plane that are controlling and destroying relationships by the use of magical rituals and sophisticated spiritual technology. So people on Earth follow the System too much and there are not enough rebels and revolutionaries that would break the status quo and become the driving force of evolution.

Despite the apparent lethargy there will be a breakthrough which is best described with a physical phenomenon, called the phase transition. This happens when a certain physical system receives a critical amount of energy and suddenly its structure changes drastically. Change of liquid water into vapor by a certain temperature is an example. Such phase transition will happen to society structure on Earth when the Resistance movement will gain enough power to penetrate to the surface and give humanity assistance in technology, healing, information etc. This will cause a stock market crash and fall of the unjust System. Use of nanotechnology, materialization chambers and free energy will mean abundance and well being for everybody. The Pleiadians will reveal themselves to humanity and will show the way towards a Greater reality. With their tachyon technology of light they will create anchors for entry into the higher dimension which will cause the arrival of the Ascended masters. The Ascended masters will carry out the plan of three Ascension waves and the Evacuation of mankind in the time span of a few years. At the time of Evacuation the Earth will

undergo its physical transformation and become a planet of light. At that moment all cosmic anomaly of darkness will vanish completely and New Atlantis will be born on Earth, a civilization of light, oneness and harmony. This will most likely happen until 21st December 2012.

## **Galactic Codex**

Planet Earth is the last planet in this universe under the occupation of the Dark Forces, the last relic of galactic wars that raged throughout the galaxy for millions of years.

As the Galaxy was being liberated from the grip of the Dark Forces, the Forces of Light have been evolving from a military force created in the urgent need to defend basic liberties of sentient beings towards a harmonious galactic and cosmic society. As beings within the Galactic Confederation have evolved spiritually and made their alignment and union with the Ascended Masters, they have discovered an inner codex that regulates all inter-relationships between beings of Light and their relation towards the Dark Forces and occupied planets. This codex is called the Galactic Codex and represents the legal basis for all actions of the Confederation in this and other galaxies. This Codex is not a rigid set of external laws but a systematized code of inner ethics of all souls of Light that all beings of Light accept with their free will because it reflects their inner truth.

We will now state the Galactic Codex in a form that is understandable to an average awakened being in a human society.

### **\*Section I: The Law of Divine Grace:**

Each sentient being has an inalienable and unconditional right to positive life experience

To explain Section I we need to understand that suffering and pain have no value in enlightened Galactic society liberated from the influence of Dark Forces and other aspects of cosmic anomaly. To value pain, suffering and sacrifice as a part of the growth experience was a part of the programming from the Dark Forces in order to enslave the population of the occupied planets more easily.

Unconditional positive life experience of every sentient being in the liberated universe is guaranteed from the inner connection of every living being with the Source and strengthened by the power of Ascended Masters over matter which allows them to assist all living beings in their aspirations towards the Source and provide them with necessities of life. Life was never meant to be hard work and struggle but rather a journey of joy and creativity. Different subsections of Section I regulate all life in a liberated universe and all relationships between beings of Light so that conflicts never need to occur. Let us explain the subsections:

### **\*Section I/1: Each sentient being has an inalienable and unconditional right to physical and spiritual abundance**

This subsection guarantees a positive life experience for every being in the liberated universe. The Ascended Masters provide for all necessities of living and for physical and spiritual richness and beauty using the power they have over redeemed matter of the liberated universe.

### **\*Section I/2: Each sentient being has an inalienable and unconditional right to Ascension.**

This subsection explains how the Ascended Masters use their advanced understanding of spiritual technology of Ascension and by utilizing the Electric Fire of redemption assist all beings that free-willingly choose Ascension.

### **\*Section I/3: Each sentient being has an inalienable and unconditional right to merge with other beings in proportion with his/her position in the Soul Family Mandala.**

This subsection is an instrument of regulation of all relationships inside a Soul Family. It guarantees the merging of beings of opposite polarity (twin souls, soulmates) and alignment of all other beings regardless of their state of development and outer conditions.

\*Section I/4: Each sentient being has an inalienable and unconditional right to all information.

This subsection is a guarantee that all beings receive all pieces of information they need to understand their role in the universe, greater perspective of evolution and all other pieces they need for their decisions, growth and well being. All this data is provided by Ascended Masters or other beings that supervise the evolutions of various races and civilizations.

\*Section I/5: Each sentient being has an inalienable and unconditional right to freedom.

This subsection provides that every being has an unlimited potential of growth and life experience. Since all beings in the liberated universe create only positivism, their freedom never opposes the freedom of other beings.

\*Section II: The Law of Dividing the Conflicting Parties:

Each sentient being has an inalienable and unconditional right to be divided and protected from the negative actions of other sentient beings. This section regulates the conditions in those sections of the universe that have just been liberated from the influence of the Dark Forces but that have not yet been accepted in the Confederation. It requires that the Forces of Light always divide the parties in conflict to protect them from producing mutual harm to each other. Then the Light Forces mediate the conflict until it is resolved. This section is often used to end wars and other armed conflicts.

\*Section III: The Law of Balance:

Each sentient being that has chosen to live and act against the principles of Galactic Codex and refuses to, or is not able to, accept them now and balance the consequences of the past actions will be taken to the Central Sun, restructured into the basic elemental essence and begin a new cycle of evolution afresh. This section regulates the relations between the Forces of Light and the Forces of Darkness. When defeated, beings that belong to the Forces of Darkness are given the opportunity to accept the Galactic Codex, do the best they can to correct the mistakes they made and to live positively afterwards. If they accept, they are forgiven and join the Confederation. If they are unable or unwilling to accept, they are taken to the Central Sun, their personalities and soul essences are restructured with the Electric Fire and their divine sparks begin a new cycle of evolution.

\*Section IV: The Law of Intervention:

The Galactic Confederation has an inalienable and unconditional right to the intervention in all situations where the Galactic Codex is violated, regardless of the local laws

This section describes the policy of the Light Forces regarding occupied planets. The Confederation reserves the right to intervene in all areas, civilizations, planets or solar systems where the Galactic Codex is violated. It has the right to do so regardless of the position of the local civilizations about this intervention. It always has the right to use all peaceful means of education and regulation. If the critical mass of the Galactic Codex principles is violated, it has the right to use military force. Special cases are planets under direct occupation of the Dark Forces. The Dark Forces usually take the local population hostage to hinder the progress of the Forces of Light. On Earth they threaten with nuclear war if the Light Forces would intervene. This is the main reason why the Light Forces have not yet liberated this planet (and not the so called *We will not intervene because we respect free will, we just watch as the suffering goes on*-nonsense).

As in any hostage situation, this requires a lot of skillful negotiation and tactical approach. This situation is slowly being resolved and planet Earth will be liberated during the course of our lives.

\*Section IV/1: Each sentient being has an inalienable and unconditional right of calling upon the

Galactic Confederation in need and the Galactic Confederation has the right to assist, regardless of local laws. This subsection gives a legal basis for intervention and assistance to all hostages of the Dark Forces. The Forces of Light always do the best they can to assist and improve the living conditions of all sentient beings, even on Earth. The situation on planet Earth just indicates how much more power has the darkness over the Light on this planet. Fortunately, this will change soon.

\*Section IV/2: The Galactic Confederation has an inalienable and unconditional right to the implementation of the Galactic Codex and of conquering the areas of Galactic Codex violation with military force if necessary. This subsection gives a legal basis for the liberation of the occupied planets with military force. The military forces of the Confederation remove the representatives of the Dark Forces and set the hostages free. Then other Confederation forces guide the process of acceptance of the planet into the Confederation by instructing the local population.

Perhaps some humans feel that the Confederation has no right to intervene and that humanity has the right to solve its problems by itself. This is simply not true. Many wars all over the planet and constant abuse of basic human rights have proven that humanity is not capable of handling its own situation. So it is much better that it receives wise guardians to guide it. The Confederation will also replace the current masters of the puppets (Dark Forces) that humanity has invited long ago in Atlantis. Then the Galactic Codex will finally become the universal code of ethics throughout the universe and darkness will be no more.

### **The Goddess returns**

After many millennia the Goddess is coming back. Her energy is coming slowly, almost without notice, but some day it will overflow the world. Her silent underground flow is slowly quenching the thirst that has accumulated in hearts of men without anybody noticing. A thirst that nothing else can quench. Not prayer. Nor meditation. Or complicated yogic exercises. Nor reading holy books of ageless wisdom. Not thousand experiences that the world can offer.

Goddess was screaming under the heel of patriarchal world for millennia. So much time has passed that everybody forgot that she ever existed. Her pale reflection was seen sometimes on dusty statuettes in forgotten museum depots. Or in the rainbow sparkling water drops of a waterfall in the Amazonian jungle, far away from human world. Or in the lovers' eyes in those moments of no time after their union. Or in the movements of a dancing girl, when nobody can see her.

Lack of feminine softness in a harsh male world has created a disbalance that thrust this world towards a brink of extinction. And now, as the patriarchal system is slowly falling apart, a memory returns from the cracks in the matrix. A memory of paradise that once was, a paradise that will be again...

In Neolithic times of old Europe, worship of healing powers of the Goddess has maintained civilization in equilibrium for hundreds of generations. The Goddess was the source of everything that ever was, a mother, a nurturer, a keeper of life, bearer of cycles of life and death. In holy caves and sacred groves intimate rituals were taking place as a gift to the Goddess. Ancient peoples were marking natural cycles of equinoxes and solstices with celebrations and festivals of sexual love, birth and spiritual renewal. Initiation into the mysteries of the Goddess was usually taking place in an underground cave, cavern or similar underground space by walking through a labyrinth and then through a ritual of merger of the Goddess and the Horned God in the center of the labyrinth. Labyrinth symbolically represented a map of human inner world and the spiritual path, a mandala of human soul, whereas the ritual of merger of Goddess and God represented the merger of female and male principles in the human psyche.

Priestesses of the Goddess were guardians of time. Time was flowing spirally, through natural exchange of seasons, through holy moments of sunrises and sunsets. Triplexity of the Goddess,

reflected in the phases of the moon, showed itself in the life of women as an archetype of the maiden, the mother and the crone. The maiden is a symbol of life itself, the mother is the one that gives life and the crone is the symbol of death. Thus the triple Goddess sensibly shows the natural cycle of life and death, when death is just a door into a new life.

Also, priestesses of the Goddess were guardians of life energy. This life energy manifested in two ways. First it was the energy of fertility which brought new physical life and also it was the energy of sexual love which brought new spiritual life. In Neolithic times all society was permeated with both energies of life, therefore it was a happy society and knew happiness that modern man has lost. But this paradise did not last forever. At the end of Neolithic era rough Kurgan warriors on their horses invaded from beyond the Caucasian steppe into the old Europe. They hated the Goddess. They hated the woman and her sexuality and were destroying it with brutal rapes. They have created hierarchy and patriarchal society as we know it now. They brought wars and violence that peaceful Neolithic peoples, worshippers of the Goddess, did not know how to resist. They were subjugated. But their belief and faith in the Goddess was strong and it carried on for millennia. Priestesses of the Goddess were active in Sumeria as *naditu*, priestesses of love that were not allowed to marry, but were working instead in the temple as healers and initiators of living sexual energy. This tradition carried on into Assyria and Babylon, wherefrom it reached Semitic peoples. The priestesses were active among Jews as *quadesha* and among Greeks as *hierodulai*.

The last strike to the energy of the Goddess came from institutional Christianity when in the year 395 a Roman emperor named Theodosius forbade all pagan rituals and when fanatical monks in black hoods with glassy eyes and foamy mouths started erasing the pagan temples, demolishing the statues, destroying the holy groves, raping the priestesses. The Christian symbol of a suffering man, tortured and put on a cross has replaced the soft, inviting and sensual body of the Goddess for a very long time.

But now the Goddess returns. In the last few decades a new impulse of feminine energies is coming from the depths of space and it is bringing the world back into equilibrium. These new energies have triggered many new spiritual movements such as hippie movement in the sixties, rebirth of neopaganism and widespread interest for spirituality. Many women have rediscovered the Goddess inside of their being and began working as priestesses again.

The Goddess returns. In her sacred groves the spring is coming back. Water from her healing springs will begin to round weary human bodies and souls. In underground caves and caverns rituals dedicated to the Goddess are happening again. And I call you, o pilgrim on the path of Light, to join them.

## **Soul Families and 2012**

The world you are living in is getting closer and closer towards a total change. First signs of that change are already here. The world financial crisis is a result of the influx of strong cosmic energies from Galactic central sun that are transmitted through the outer planets of our solar system, especially involving Pluto. These energies enter our planet and bring to the surface everything that was hidden and suppressed. Inside the increased vibration of those new energies, an exploitative system such as exists now on our planet can not exist much longer. The financial crisis will continue up to the point where humanity will be forced to establish a system of exchange that will be fair to everybody. 2009 is the last year when things will be "business as usual". Already next year the changes will most likely get more physical and all this will lead towards a culmination point in 2012, when there will be a sudden shift of realities for the whole planet into a more positive future. These cosmic energy changes will lead individuals to face their fears and look more deeply inside into what they did not wish to see before. This will be the greatest spiritual crisis that humanity has ever experienced. But this crisis is the only way for us as human beings to stop behaving like sheep

and finally become beings of Light as was always our higher purpose.

Purification of darkness has come to the point where those who are willing can now begin to create areas of light. They will be created first in consciousness, in our interconnectedness. This interconnectedness was not possible in our old world. In our old world we were connecting with each other from the perspective of personality families. In the new world we will connect with each other as soul families. Only areas of light that we will create with interconnectedness will enable a soft transition into the new age when the financial system, which was established by occupying forces on our planet eons ago, finally crashes.

Personality family as a basic cell of society is one of main illusory ideas that was implanted into humanity in the time of Atlantis. This idea caused a shift of focus of consciousness from the soul plane towards the personality plane and also caused the creation of relationships based on genetics, which led to corruption of the genetic blueprint of humanity. If the energies of the soul do not enter the twelve stranded etheric DNA, higher spiritual abilities begin to deteriorate and an illusory matrix is created which changes the life experience into a labyrinth.

Soul family in a physical incarnation is always created by its members recognizing each other as souls, especially by recognizing their own position in the soul family mandala and becoming aware of the nature and purpose of their interrelations. When a soul family is created on a physical plane, this automatically triggers the Ascension process, a process of lifting the vibrational frequency of all its members into the fifth dimension.

For this process to occur there must be a connection between members of the soul family on all planes of creation. Most important is the soul connection that is conscious to the extent that it is recognized by the physical brain of all soul family members. On the mental plane this connection manifests as a free flow of ideas, understanding and pure communication between members of the soul family. On the emotional plane this connection shows as a free flow of emotional energy, clear emotional expression and empathy between all members. On the physical plane it manifests as expression of love through action, loving touch and clear flow of sexual loving energy between members of opposite polarity.

On the soul plane there are different levels of interconnectedness between various members of the soul family. Connections between twin souls are the strongest, but they will begin to be established only after the First Contact between our planetary civilization and extra planetary forces of light. Connections between soul mates are also very powerful. There is a certain electromagnetic attraction that occurs between soul mates and it enables the transformation of all suppressed and unconscious sub personalities. There is also an underlying basic connection between all members of the soul family, between all sisters and brothers of light. This connection is based upon common purpose and a common role in manifesting divine missions that we were born for.

Interactions inside the soul family create wheels within wheels of spiral vortex movements that create a transition bridge between our third dimensional world and worlds of fifth, sixth and seventh dimensions. These spiral vortices activate our light body and serve as a platform for our transition into the new state of consciousness.

Indigo and rainbow children of the new generation inside a soul family will not be brought up only by their genetic parents, but by the whole community instead, so they will grow into much healthier individuals. Sexual energy, suppressed by religions for millennia and manipulated by modern media, will finally be released and connected with the energy of the soul. Women will discover again their role as goddesses, liberate their sexuality, connect it with the soul and begin to heal with it. Men will again become visionaries, heroes and builders of the new world. Monogamy will not be the only way of relating between men and women anymore, but only one of the options.

When we will create enough areas of light through our soul family interconnections and when our financial system will reach a critical point of decay, soul families will begin to decide to physically live together and will begin to create communities of light. Those will learn how to act according to the principles of higher consciousness. When this consciousness will be developed

enough, those communities will grow into islands of light. Islands of light will be spots on the planet that will establish First Contact with extra planetary forces of light. These light forces will quench all remaining military conflicts and introduce an era of peace to humanity. It will be the dawning of the new age, the age of Aquarius...

## **The Coming Years**

Year 2012 will be marked by extremely increased solar activity. Solar activity maxima usually occur every 11 years and they represent a doorway through which the Galactic consciousness is entering the solar system. Energies of the Galactic central sun always cause drastic changes in the human society.

If we take a look at how Galactic impulses at solar activity maxima have influenced humanity, we see an astounding picture. The solar maximum in 1778 has triggered the American Revolution and signing the Declaration of Independence just two years before. The maximum of 1788 has triggered the French revolution in 1789, which is a mere year after that. At the solar maximum of 1804 Napoleon became the French emperor. The maximum of 1816 happened just one year after the Vienna congress which changed the political shape of Europe. The maximum of 1830 was marked by the June revolution in France. The maximum of 1848 is a great milestone since it was the time of March revolution which removed feudalism from most of Europe. The solar maximum of 1860 has triggered the unification of Italy into an unified state just a year later. The next maximum in 1871 is known for the Parisian Commune. The maximum of 1883 triggered the volcanic eruption of Krakatoa, the greatest volcanic eruption in modern era, whereas the next maximum in 1893 caused the crash of New York stock market.

The next maximum in 1907 triggered the first Russian revolution that was taking place between 1905 and 1907. The maximum of 1917 caused the October revolution in Russia.. The solar maximum of 1928 triggered the famous stock market crash of 1929, the biggest stock market crash up to date. The next maximum of 1937 influenced the rise of fascism and consequentially the start of the World War II, through which a vast portion of Galactic darkness was purified. The solar maximum of 1947 triggered the Informbiro of the Stalinist regime the year after. The next maximum in 1957 influenced the beginning of the space age with the launch of the first orbital satellite. On political plane it triggered the Soviet occupation of Hungary the year before and also the Cuban revolution. The maximum of 1968 is known for the hippie sexual revolution, whereas the maximum of 1980 was relatively peaceful, if we don't take the eruption of St. Helens volcano into account. The next maximum in 1991 triggered the collapse of communist regimes in Eastern Europe. The solar maximum of 2001 is world famous for 9-11. So what awaits us at the next maximum in 2012?

Astronomers predict this to be the strongest solar maximum in the last 50 years. Besides that, a Galactic cycle will end then which will trigger a strong eruption of energies from the Galactic central sun that will travel to Earth via Jupiter. The energies coming in between 2009 and 2012 will trigger the final purification of darkness of this planet. In 2010 the energies will be strong enough to start a new wave of mass awakening, similar to the one that was happening in early 90s. The changes will start getting more and more physical and more and more people will realize that something extraordinary is going on. The system of control that was put up in Atlantis by the dark forces will hopefully finally crumble and give space for humanity to create something new, something better. After 2012 these energies will be so strong that they could enable the First Contact between Earth humanity and extraterrestrial civilizations. First, the Pleiadians will appear to humanity. They watch over the destiny of mankind since Atlantis, when they built the foundation of civilization on Earth. Since Atlantis many Pleiadians acted as spiritual teachers on Earth. This time the Pleiadians will appear en masse.

They will bring the light of truth to humanity and it will shine as a guide through intensive changes that await our planet. After 2012 the energies from the Galactic central sun will namely flow uninterrupted and they will cause drastic changes. They will trigger uninterrupted increased solar activity which will cause extraordinary temperature and climate changes on the surface of the planet. Due to increased temperatures enormous stock of methane hydrate above Arctic Circle will melt. It will act as a greenhouse gas and raise the temperature additionally, which will cause accelerated melting of Arctic and Antarctic ice shelves and thus massive flooding of coastal areas. Water will drown all coastal cities and this will trigger mass migrations towards higher grounds. But because dark forces will not be present then anymore and since the whole process will be taking place under direct guidance of the forces of light, those changes will not be as stressful as they could be otherwise. Therefore we can expect such a fast rising of consciousness that the first wave of Ascension could happen around 2016, the second wave around 2020 and the third wave around 2025 along with the mass evacuation of humanity. 2025 is the year when the Earth is supposed to complete its transition into the fifth dimension and through the physical polar shift become a sacred planet with hyper dimensional consciousness.

The year 2025 marks the completion of a 50 year cycle that started in 1975 and it represents a dimensional doorway through which the absolute will transform all darkness of the universe and will help Earth in its transition into the fifth dimension. This is the most intensive period in our whole incarnational cycle and let's do our best since opportunity like this one only occurs once in millions of years. So let us travel together in the new world that is being born....

## **Vision 2012**

It will begin suddenly, without warning. Many scandals that will disclose true background about how the System works will shake human masses. Disclosures about how international energetic mega companies earn billions selling oil, preventing at the same time inventions of free energy to come to public. Disclosures about pharmaceutical trusts that earn money with »healing« diseases that are spread with viruses created in hidden laboratories. Disclosures about efficient cures for AIDS, cancer and other diseases that are known for quite some time, unknown to human masses. And about world media and censorship there, which is a logical consequence of a fact that few individuals own most worldly known newspaper, media and telecommunication companies. And finally disclosures about a secret world government that has most prominent politicians as its puppets and which creates profit out of wars and human suffering for millennia, a small group of beings that you work for in your jobs and voluntarily give them a significant amount of your monthly salary.

When lists with names, supported with facts will be known, human masses will arise. When facts will be known about what is happening in the stock market and where the money really goes, this will create a world stock market crash and fall of the current monetary system. Riots will begin as a consequence of released emotional energy which was suppressed for so long. In the chaos of those days members of the Resistance movement will reveal themselves to humanity and give guidance and support. They will penetrate to the surface from their underground realms and bring along technology that will help humanity to get over those critical moments. They will cure most of currently known diseases with their medicaments.

With their free energy sources they will end world energy crisis and stop environmental pollution. They will bring information that will open the eyes of people. Finally people will realize that they have lived in quarantine for millennia. Money will disappear and will be replaced with exchange of goods based upon vibrational economy. The Resistance movement will assist in establishing new world government which will be chosen by humanity with its free will and that will lead humanity based on the principles of the Galactic codex. At that point the energy field of the planet will be

cleared significantly. Memories of Atlantis will be returning to people and they will begin to create a New Atlantis, a new civilization of light. Buildings will be constructed in a combination of Atlantean and modern architecture which will be in harmony with nature. Many will be in a pyramidal or half spherical shape. Spiritually developed individuals will begin to gather in New age communities, so called islands of light. Everybody there will follow his vision aligned with the divine plan in deep connection with the universe. When people will release the past, everybody will experience clarity of mind, emotional aliveness and physical health. The basic cell of society in islands of light will not be a family of personalities (father, mother and children) but a family of souls (twin souls, soul mates and other members of a soul family). People will connect there energetically and telepathically with angels, guides and extraterrestrials. Through islands of light a physical connection between the surface of the planet and extraterrestrial civilizations will be established. There will be teleportation chambers in islands of light through which it will be possible to travel into the Resistance movement, for some people into the Atlantean network and also towards the Pleiadian mother ships. When the network of light will be strong and stable enough this will enable mass landings of Pleiadian starships. The Pleiadians will assist humanity during its transition towards the New age and with the process of acceptance of this planet into the Galactic confederation. They will anchor energy columns that will guide planet Earth through its transformation during its entry into the inner section of the tachyon belt.

When the critical mass of consciousness will be achieved the first wave of Ascension will occur. Mother ships of the Galactic confederation will hover as brilliant white clouds above the islands of light, where teleportation beams will descend and lift the volunteers into the mother ships. Those volunteers will reappear on Earth shortly in Ascended state in their rainbow bodies of light. Soon afterwards another critical mass will be achieved and the second wave of Ascension will happen. Masses of Ascended masters that will return to Earth will prepare humanity for the third wave of Ascension and for the Evacuation. Great planetary cataclysms will begin then as a cleansing of the physical matter of the planet. At the moment of most intensive cataclysms a polar shift will happen and that will trigger the third wave of Ascension with final Evacuation. Linear time as we know it will end and Earth will enter a new, higher dimension...

END

## **INTERVIEW WITH ISHTAR ANTARES**

When in 1993 in one of the Slovene New age magazines an article about the evacuation of mankind in space ships has been published, Ishtar Antares from Ljubljana came to see. He said that he has knowledge about the evacuation of mankind since his childhood.

### **HOW WILL SPACE PEOPLE RESCUE EARTHLINGS?**

It will happen in three waves. Upon the first wave about 1000 to 2000 people will be taken to space ships - these are STAR PEOPLE, who came from the stars. Those among them who are the most aware, who had released all attachments towards the Earth and know what there is to do, will go first. Upon the ships they would achieve their full consciousness, the consciousness of Ascended Masters. By their free will they will return to Earth and help carry out the evacuation till its end. Some of them will return, some of them will not, mostly they will. Those will prepare the second wave. At that time at least 144.000 beings will be evacuated - this is the critical mass for humanity. That number of Ascended Masters needs to be here upon the Earth to save mankind. And they will return to Earth as Masters to prepare the third wave. The third wave will be evacuated right before the major catastrophe, or cataclysm.

DOES THE DATE OF CENTRAL POINT OF EARTH TRANSFORMATION THE 11TH of AUGUST 1999 AGREE WITH SOMETHING?

This date agrees with everything. This is a time of the total solar eclipse, at 11 hours 11 minutes. In Ljubljana, the Sun will be, at that moment, exactly in the middle of the sky interesting detail. Northbound from Maribor there will be a zone of total solar eclipse.

WHAT IS IMPORTANT FOR THE THIRD WAVE?

For the third wave it is important that people know that this will be evacuation, they will trust the ships, which will be coming and they will not be afraid of the ships. It is important that they will release all attachments towards life on the Earth, towards material things, towards other people, that they would go upon ships, when the time is coming. And that they would not run heedlessly home to grab gold, jewelry, money, or children. Every individual that will be saved is important. That's why it is so important that people know what they will need to do at that time. So they would not fight the ships, shoot at them or run away from them. It is important that armies would not make any panic at that time, if there would be any armies remaining.

HOW LONG WOULD THE EVACUATION LAST?

It will all occur very quickly, about 15 minutes for all humanity. So there will be no time for you to go home for jewelery, money, other people, souvenirs from holidays, but you would need to go on the ships immediately. Who'll run home and later come back, he will not find the ships anymore. And what is worse - because there will be earthquakes, floods, this will exterminate him. At the first sight, evacuation is strange, tragic, but actually it is not. After this transformation, Earth will be completely cleared, there will be no more pollution, and Earth will become an Eden like planet. People will also be cleared from all diseases, fears and pollution.

HOW WILL PEOPLE LIVE AFTER THAT? IN A PHYSICAL BODY?

It depends on individual. Some of them will go to other planets that are already ready for those who would like to live in the world of duality or in physical body. Ships will transport them to those planets. Some people will live as Ascended Masters on Earth, among them so called STAR PEOPLE. Some will go further on, on higher levels of existence.

WHERE DID YOU GET THOSE VISIONS, THESE DATA?

Some visions I received by my own, from within, some data I received from literature, so from different sources.

WHEN AND WHY DID YOU BEGIN TO INTEREST IN THOSE THINGS?

Very early I began to show interest for this, for cosmos. Since childhood I have a wish to go up, home. And this wish is slowly coming true.

DO YOU REMEMBER YOUR HOME, YOUR PREVIOUS LIFES?

Long before I first came to this planet, millions years ago, I lived on a planet named Alta or Ajaho in Pleiades. This was an etheric planet, where we lived as angelic beings. It was a very conscious life, about 15 to 18 million years ago. This information is correct because I received information from various sources and I harmonized it. Life on Alta, I remember very well, I could describe it as perfect happiness. In fact, we lived as one being, as angels. Angels know only happiness and joy.

ARE THERE ANY MILESTONES IN YOUR CHILDHOOD, WHEN YOU BEGAN TO SHOW INTEREST FOR COSMOS?

From the fifth year on I began to get interested in aircraft, and from 6th and 7th year I was very interested in space and space ships. I read science fiction a lot; I had astronomy as a hobby and later

astrology. And now I'm making contact with Star beings.

DO YOU HAVE CONTACT ALREADY?

I have or shall I rather say I am in a phase of establishing contact with them. I do not have firm contact yet. I am speaking of Star beings who don't live on this planet.

DO YOU HAVE CONTACT WITH STAR BEINGS WHO LIVE UPON THIS PLANET?

Yes, I have contact with them. I know about 50 of them.

HOW MANY STAR PEOPLE ARE IN SLOVENIA AND HOW MANY ON THE WHOLE EARTH?

I estimate about few thousands STAR PEOPLE in Slovenia, around the world there are about couple of hundred thousands to couple of millions. I do not know exactly.

HOW DO YOU COMMUNICATE WITH THEM?

STAR PEOPLE are, looking from outside, just ordinary people, but they are working on self improvement, they are very interested in spirituality. Those who are in Slovenia I communicate with in Slovenian language, but lately we communicate also in Star language, with those who are enough aware.

WHAT DOES STAR LANGUAGE LOOK LIKE?

It is a kind of angelic language. We are also developing telepathy, this ability is awakening spontaneously along with spiritual development, many abilities are developing which we'll need very much in the future.

DO YOU HAVE CONTACTS WITH STAR PEOPLE WHO LIVE ANYWHERE ELSE IN THE WORLD?

I have contacts with Germany, Denmark, Netherlands and America.

HOW DID YOU MAKE CONTACT WITH THEM?

I met some of them in Ireland, I wrote some letters to America to groups who are working with this and they wrote me back. We are now maintaining these connections.

WHAT DO YOU REMEMBER FROM YOUR PREVIOUS LIFETIMES?

I remember many things - Atlantis, Egypt, India, Rome. This is my second time in Slovenia. I had 12 lifetimes. This is my last lifetime in physical body.

WHAT IS YOUR MOST IMPORTANT MISSION IN THIS PERIOD TO CONTRIBUTE TO THE REALIZATION OF THE EVACUATION PLAN?

Currently I am spreading the information on Ascension waves and evacuation. The first and the second wave are called the Ascension waves. In the first and in the second wave the STAR PEOPLE will be evacuated, those who already were Masters and have a memory of that. Also Earth people can be evacuated those of them who are aware enough and know what is going on. And whoever will by freewill return to Earth will help by developing humanity and by the evacuation.

WHAT ABOUT CIVILIZATIONS WHICH LIVE AMONG US, BUT WE DON'T SEE THEM?

On the etheric plane there are many civilizations. Representatives of the Ashtar Command, Ascended Masters, who help the Earth, live freely among us - there is about 10 millions of them. All of them are members of GALACTIC CONFEDERATION, confederation of all planets of Light, all civilizations of Light, which help this planet and other planets also. Many of them came to Earth

lately and there are also many ships around Earth which are ready for evacuation. Smaller ships are about few miles in diameter, but larger of them are also many of hundreds miles in diameter - these are mother- ships. The small ships are somewhat 10 meters in diameter, so called UFO. Those are materializing from etheric plane, when UFO appears suddenly but they are also in danger because Earth people have already shot at them. On the other way the physical plane is very dense and on this plane it is more difficult to carry out the maneuvers of flight. There are certain limitations on physical plane therefore it is much easier to travel, fly on the etheric plane. For instance, it is possible to travel through the centre of Earth. On the etheric plane there are also many neutral and positive beings, who are coming to this planet. Mostly they are scientific civilizations that are interested in life on this planet. Those beings are not harmful. For instance there are some beings coming from the part of Pleiades. When the Atlantis sank, a part of Atlantean civilization came back to Pleiades and they have established civilization which is more developed than the Earth one, but they have not yet ascended. They are interested in life on planet Earth. But there are also some negative beings; some of them are animal like. These are primitive beings. Those civilizations are abducting people but there are also some more negative civilizations which are also more dangerous. These are Dark Lords from Orion. They are involved on Earth from the time of Atlantis on, especially in the area of economy with credit cards, they are preparing total control through New world order etc.. Those Dark Lords are visible, they have a physical body.

#### HOW THE POSITIVE CIVILIZATIONS ARE HELPING US?

They are sending us energy. A very important thing which is not yet visible from outside is that they are building the network of Light, on the etheric plane. That means that all atmosphere of the Earth or vibration of the humanity is rising. We are getting more optimistic. This has not yet manifested but there are some certain effects, for example peace movement, so called New Age, the end of the cold war between the former USSR and US.

#### IS THERE A SURE DANGER OF OUTBURST OF THE ATOMIC WAR?

There is no danger for this anymore. There is a more definite danger of local wars around the Planet. Currently there is a crisis in Bosnia, wherefrom the war can spread all over Europe. There is also definite danger in the former USSR.

#### WHAT IS THE FINAL GOAL OF ALL COSMOS, OF ALL CIVILIZATIONS?

The final goal is an evolution which will lead towards perfection, happiness and oneness. At the end there will be a reunification as there once was a separation. So now we have known separation and we can go back consciously. This is a purpose of all.

#### WHAT ARE YOUR PLANS IN THE NEAR FUTURE?

I am going to Los Angeles and I do not know if I am coming back to Slovenia.

#### WHY ARE YOU GOING TO AMERICA? YOU HAVE A GROUP THERE?

I don't have a group, these are only my visions. Actually I am searching for a certain group in Los Angeles. I am connected with that group since the time of Atlantis; we all came from the planet Alta, where we lived as one being. Later we separated but not totally, because we were connected through all the lifetimes. There is a girl, who is my twin soul and is also connected with this group. I saw her in a vision 10 years ago, she is calling me and that's why I am leaving.

#### DOES ANYBODY HAVE ITS TWIN SOUL?

Before we came first to planet Earth we were together with our twin souls. Later we separated and each of us lived its own life. Each had its own experiences.

#### THE TOTALITY IS MAN AND WOMAN TOGETHER?

Actually this is one soul which incarnates in two bodies. Male and female. The occult law says that before they become Masters, in their last lifetimes they come together. So now I will meet her. Having contact with a twin soul is something very beautiful. It is an energy we search all our lifetimes. If you don't have this connection there is always something missing. And once you have this connection, life becomes much easier.

#### HOW CAN YOU MAKE CONNECTION WITH YOUR TWIN SOUL?

With meditation. You visualize his or her image. You visualize your ideal because all ideals emerge from the memory of life with twin soul. Both poles call each other. And this creates very strong energetic vortex and there comes a moment when you can not deny this call, you need to go, regardless of everything.

#### HOW WILL YOU RECOGNIZE THIS GIRL?

I know how her physical body looks like; I know how her voice looks like though I haven't met her yet. I know her very well and I would recognize her immediately.

#### WHAT IS IF ONE POLE IS ON EARTH, OTHER ONE ON THE OTHER PLANET?

In this case the soul mate will channel the energy of twin soul and this is something very similar. Everybody on a spiritual path will meet his twin soul or at least a soul mate. It is because on this planet, on Earth, energy of Oneness needs to be established. And this is very important. This is why we came on Earth from other planets, because we can bring this energy here. We know it already, we have been in Oneness and even though we've lost the memory of it we can still remember much sooner. We can achieve Oneness much easier. We brought this energy to Earth and therefore humanity can develop much faster as would otherwise.

#### WHAT ARE THE RELATIONS BETWEEN THE SPACE BEINGS?

All are cooperating very harmonically; each has his own position regarding his own talents and inclinations. This is not a hard work and each of them is doing his work with joy. There are many of them around Earth right now. Ashtar Command is a fleet of space ships around this planet and Ashtar SherAn is its commander.

#### CAN YOU SEE THEM?

I do not see them, but I receive visions. I have seen many times the ships landing on this planet at evacuation. I have not seen them directly, at least until now. A vision is in one way an impression, a picture, this is not etheric seeing, but it is similar. So in one way I can say I see them.

#### CAN MANY PEOPLE SEE THEM?

Some can see them. It is very interesting because things agree together. What I have seen, other have seen also. So things are confirming this way and this is very important.

#### WHY ATLANTIS SANK?

Atlantis sank four times. The first and the second time this was a natural disaster, but the third and the fourth time it went down because of the crystal experiments. The purpose of these cataclysms was the same as it is now - purification of Earth.

Civilization went away from its right path. Something less than million years ago Dark Lords from Orion came to Earth. Orion is a constellation, and those Dark Lords are from the star which is called Rigel. They came to Earth to bring confusion. There were intense wars on Atlantis and because of the wars between the Black and the White Magicians Atlantis went down. This was famous fall from Eden.

Looking from a higher perspective, the sinking of Atlantis was incorporated in Divine Plan, also the Black Magicians came to Earth with permission from Ashtar. So duality could play out and then clear completely, otherwise it couldn't. There were intense wars and genetic misuses on Atlantis; like now, even though it was much more widespread in those times. In its late period - last 200 thousands years' earth time, Atlantis was very highly developed, because much knowledge came from Pleiades.

Space ships were landing as planes do now, but they didn't use atomic energy because it is a very unclear source of energy. They knew materialization, space travel, telepathy. After deluge nothing of that remained.

#### IS THE BERMUDA TRIANGLE ALSO CONNECTED WITH ATLANTIS?

Below the sea, a crystal generator remained which distorts the magnetic field. Some sort of null zone was created, which causes the changes of space time continuum structure. A vortex was created which can send you on etheric plane, in past, in future, other space and time. This is area around the Bermuda triangle.

#### HOW THE NEGATIVE CIVILIZATIONS LIKE THE BLACK MAGICIANS WERE DEVELOPED?

Beings from Orion are in fact fallen angels, they have been ascended before. They went through similar process as we do but they have lost their consciousness much more. Part of their origin is still a mystery which must not be revealed. They went to the core of the matter; they went consciously in total separation. If we look back into evolution - when this Universe was manifested, a part of God decided to be separated from itself. And beings from Orion are originating from that part. They are needed, they are part of the Divine Plan, they are doing their mission. Many of them will be saved at the evacuation, many of them will not. Those of them who'd like to continue to spread all negativity will die as a soul also.

#### WHAT IS THE PURPOSE OF RELIGION?

Which regards religion very important is trust. People would not look so much to the external form of religion - who died on a cross and why - but have to trust in something higher. The changes which will manifest in those years on Earth will cause much chaos, because people do not have knowledge of what will happen. In the midst of this chaos people need to keep trust in the higher wisdom, in the higher guidance.

#### ARE THE LEADERSHIPS OF VARIOUS RELIGIONS - LIKE CHRISTIANITY OR ISLAM - AWARE OF THE PLAN, ARE THEY ACCEPTING IT?

If they are aware, certainly they do not dare to do anything about it.

#### IS THIS PLAN REPRESENTED IN THE APOCALYPSE ALREADY?

If people would follow that which is written in the Scriptures, where everything is shown very clearly, everything would be much more simple. It is enough for us to know the New Testament, where there are every signs of the evacuation.

#### WHAT RELIGION WILL EMERGE IN FEW YEARS?

It will not be a religion in the present sense of this word; it will be some kind of esoteric psychology. This will be a knowing about God, religion, which bases on realization. And this is esoteric. Realization that Man, in his essence, is God.

#### WHAT IS GOD? WHAT IS FREEWILL?

This can actually not be said. God is love. People are imagining God as a person. But which is more

important is enlightenment, direct experience. Everything before enlightenment is just guessing, ideas, and conceptions. Man needs to experience enlightenment. Until that, faith and trust are very important. Trust in a Plan and in that current happening on Earth has a higher sense, that there will be the evacuation, that this chaos does not mean the end of the world, but just a great transformation. Cataclysms are actually just cleansing in line with the law of the nature. Nobody needs to die on this planet, but many will rather decide to die, instead of leaving anything on Earth. Everybody could be saved with his freewill; the ships are ready for everybody on this planet. Even for murderers, for everybody with freewill.

#### HOW LONG WOULD WE LIVE UPON THE SHIPS? AND LIFE AFTER?

It depends on how long the Earth will be cleansing itself. Earth will be cleansing itself few years, even though the transformation will be very short. The cataclysm itself will take maybe a few days. And I think it will take only few seconds. It will be a moment which can not be described, which can not be measured by time. The whole structure of matter will change dramatically - there will be a leap in higher dimension, in just one moment. We will not measure time in earth years anymore. And if we would measure in current earth time, I estimate, the cleansing would take about 13 years, and some people estimate 5 to 7 years. Right after the cataclysm Ascended Masters will come to Earth and begin to cleanse the planet. People mostly will not come back, but will come to other planets, where they could live as they have lived on Earth. Life will be much easier for them, because there will be no Dark Lords any more. There will be no more famine or wars, in a current sense of the word, it will be much easier as it is now.

#### WHAT KIND OF LITERATURE ABOUT EVACUATION IS ACCESSIBLE IN SLOVENIA?

There are various books, articles, there is not much literature. In America, a book was published, which speaks about the first and the second wave. Information is coming through various sources and channels.

#### WHAT IS THE ROLE OF SLOVENIA IN THIS PLAN?

Slovenia is a very important point, because it is just right near the dangerous area in Bosnia. There is a rift in aura, a weak point, from where conflicts could spread all over Europe. Slovenia is a buffer against those conflicts and they will not spread from thereon. Slovenia is protected from up high, it is protected very strongly energetically, and there will be peace until the major transformation. In Slovenia the information about the evacuation will begin to spread around. The surface of Slovenia is small, the population is small also and so the critical mass will be achieved quickly.

#### IS SLOVENIA IMPORTANT FOR THE QUANTUM LEAP OF CONSCIOUSNESS?

This quantum leap of consciousness in Slovenia has happened already. Information about the evacuation has spread all around the land. This means that Slovenia is saved already, actually Slovene people are saved. So people will be ready for evacuation when time comes. Because the quantum leap has occurred already - on the 14th of September 1993. Slovenia is a vortex of New Age, there are 12 of them all around the world, and these are currently the most important points on Earth, which regards consciousness.

#### WHAT INFLUENCED THE QUANTUM LEAP OF CONSCIOUSNESS IN SLOVENIA?

Information about the evacuation spread all around. We have spread that information for the last half of year and critical mass was achieved quickly. In Slovenia there are about 500 people who are engaged in the New Age movement; from those people around 30 to 40 people need to know about the evacuation and the Ascension waves. And those 500 people knew this somewhat and when they read an article about the evacuation they were ready for it. Something shifted in their consciousness

and if 500 people know soon 3000 people know. And when 3000 people know Slovenia is saved. They know somehow, consciously or subconsciously. When the time comes they will be ready. That's why those messages need to spread around now. And when the whole Slovenia will know, soon the whole world will know. It is spreading like fire. It started in Slovenia and it can not be stopped. Slovenia is, in fact, some kind of a trigger.

## Appendix

### **NEW ATLANTIS**

The purpose of the project is to anchor on the physical plane the ideal of coming civilization, which will blend the best from the old Atlantis (view into the past) with all hopes and aspirations of the One which leads humanity into a better world (view into the future). New Atlantis will be a civilization which humanity will create during the transition into the New age - the age of Aquarius. In the initial phase the project consists of three subprojects:

#### 1) TIME-SPACE LITHOPUNCTURE

Lithopuncture is healing of the energy body of planet Earth with stone statues and sculptures. Time-space lithopuncture heals time-space anomaly that planet Earth is subjected to, with the aid of meditative awakening of universal remembrance. In Graeco-Roman sculptures and some other objects from that time period there is an energetic imprint of ideal of old Atlantis in their subatomic structure. If we put such statue or object on a specific spot and enliven the energetic memory which dwells within it with meditation, such object or statue becomes alive and its energy field begins to emanate a message about the ideal of old Atlantis into surrounding space.

#### 2) ACTIVATION, ENLIVENING AND HEALING OF PLANETARY VORTICES

Before the civilization of New Atlantis can manifest on the physical plane it must become alive in energetic world, in world of archetypes. Planetary vortices are angelic beings who are on special energy spots throughout the world preparing the living organism of Earth for the great change that is awaiting this planet. With specific meditation work we can enliven these angelic vortices and with suitable anchors (aquamarine crystals) we connect them with the physical plane so that they begin to accelerate the evolution of humanity and prepare the consciousness of people for arrival of New Atlantis. With certain specific crystal opals we connect those planetary vortices with the tachyon energy field that is coming to this planet from interstellar space and thus enliven and heal them.

The following activations of dimensional portals are planned:

### 3) PUBLISHING OF THE ENGLISH VERSION OF ASCENSION BOOK (author Ishtar Antares)

This book contains basic information needed for awakening of humanity and its preparation for entry into the New Age.

In the next phase the project anticipates building a network of temples on specific points around the planet, where awakening (transmission of correct esoteric information), anchoring of energies (dimensional lithopuncture), healing (deactivation of old Atlantean implants) and merger (galactic tantra) will be taking place. Knowledge that is needed for this is already available, all that is needed is physical realization of the project. The Atlantean network is supporting the project with its energy. The project will be carried out according to available financial resources acquired from sponsors. Speed of project's manifestation will reflect the state of consciousness on planet Earth. When the network of light, created with the project, will be strong enough, it will enable contact with forces of light such as Atlantean network and Resistance movement and through time also with positive extraterrestrial civilizations.

Sponsors interested in the project can reach the author at [antarion@volja.net](mailto:antarion@volja.net)
