

REVELATIONS FROM A OFFICIAL OF A EUROPEAN MEMBER STATE

A PROJECT CAMELOT INTERVIEW

AUGUST 2013

Just background.....

- D: When I go into the off-world contacts you can you can identify me as an official in a European Member State to make it fairly loose when I go into the off-world stuff.
- K: For me, in terms of your trajectory, can you give me just the nuts and bolts in how you got from point A to point B to where you are today in the position you are in? Did you have some special help to get into those positions that you hold?
- D: My country is a small country to get a job, everyone has to have some help.
- K: So was the help coming from any direction, in other words, associated with the Vatican, Academia etc?
- D: No, no. Let's say local politics but on top of local politics there was the off-world connection.
- K: Did you feel this was a positive off-world connection that was guiding you, or helping you along, or not?
- D: It's mixed. Now, I was made aware of this off-world connection and I was asked to do a lot of reading on Helena Blavatsky. I was instructed to read books like '*Isis Unveiled*' and '*The Secret Doctrine*' as well as '*Alice in Wonderland*' and '*The Lord of the Rings*' to prepare me. I was also referred to the old Egyptian religion and pointedly the 'Egyptian Book of the Dead'. I was pointedly told that ,typically, eighty years after the inception of any religion, it {the religion] starts to get distorted, usually in a severe fashion, as careerists under illuminati or parallel agendas.

I went through the material and I was also alerted to certain situations in the past, certain anomalies, a point in fact being the high point of the the nuclear crisis between the US and Russia in the early Sixties and, I was given an indication about how the situation had been resolved through an off-world connection. If one follows the exchanges between the Kennedy side and the Russian side one can note that the correspondence appears to be erratic. The situation was this: Kennedy was hot headed, Jackie was less so. What off world controllers did was this: a phone call to the Russian side was faked – simulated with Kennedy's voice and that is why the sequence is so erratic and that is why the Russian reaction was so bizarre. That is

why you see the Americans answering the first letter from Khrushchev to Kennedy and not the second angry letter¹.

K: So, the faked Kennedy voice, was this trying to escalate or calm down the situation?

D: No, to calm them down . . . to diffuse.

K But Kennedy's real reaction was more aggressive?

P Yes and akin to that of an arrogant young boy– although towards the end of his life he changed a bit.

K: What does Jackie have to do with it?

P; Because Jackie was in to Buddhism and so on.

K: Did they reach her?

D: They used to her to calm things down in the background.

K: Are you able to say who 'they' is?

D: Let's say – a parallel civilisation or better civilisations. One parallel human civilisation which some of us are about which is Neuschwabenland and has a population of between 20,000 to 30 000 is governed by councils. There are another 3 parallel civilisations. One has a population of about ½ million, another of 5 million. There are 3 groups: R, A and L. R are the reptilians; A are the Atlanteans; L are the Lemurians. The Atlanteans number about ½ million and the Lemurians about 5 million, although the populations sizes vary. Within the Lemurian side there are 4 sub races. The Atlanteans and Lemurians work well relatively together. The Reptilians are opposed to them. The Atlantean technology is more advanced than the Lemurian. When Atlantis collapsed some of the survivors moved somewhere else, but they are still with us in close proximity, although time flows rather differently there.²

K: Right. To Egypt

D: No, not only. Another, is Lemuria still maintains a strong contact with people on this earth, including China.

K: And they are in the Pacific Ocean – in these under Sea bases?

¹ The high tension point of the movie entitled '*Thirteen Days*' brings this particular juncture out dramatically ref. <http://www.imdb.com/title/tt0146309/>

² The movie *Inception*, ref. http://en.wikipedia.org/wiki/Inception_%28film%29, brings this point out abundantly clearly.

D: No.

O: Are you able to say where they are?

D: I will tell you off camera. I will give you some hints. You have books like the '*Lord of the Rings*' which refer to real situations – the Hobbits are the humans³. This is opening and closing dimensions – going around.

Have you heard about Nicholas *Montserrat*? He wrote a book called '*The Time Before This*'. There is a link.

K: The ones you are referring to: are you able to describe their physicality? Within these groups, you are saying there are at least 4 different groups within the Lemurian. There have to be several different groups within the Atlantean Group too?

D: Possibly. However, it is my understanding that their society is governed by monarchs and they still use Sanskrit, in its in a fashion more akin to its pre-Vedic form. However, all the groups interact, including the very small numbers of humans there, possibly 100 or so interact freely. However, the reptilians demand that the humans join their hands in supplication when they are approached. As an aside, it is not permitted for the [visiting] humans to take live video or pictures there, although they are permitted to write about their experience.

K: How did this information come to you about these groups?

D: I was informed.

K: From a human source or was it a download or psychic perception?

D: By someone who ought to be dead a long time ago.

K: Did you see my Time Travel conference? I have some information about this?

D: Yes, I did.

K: Did you see the story that I told at the end about people who are supposed to be dead that aren't?

D: Yes, I think I did.

K: So this person who is supposed to be dead: 1. are they one of those people who has lived here a long time because they have gotten the key to longevity?

D: You could say that.

³ Also, note that Golom, who appears to be very 'Grey' like, was originally a human. The reason will become apparent later in this text

- K: Or, 2. are they one of the people that has been exposed to the reverse ageing process or, 3. do they come over from the parallel?
- D: The first bit. Number 1 and number 3 – they are connected. But even 2. is possible⁴.
- K: The longevity key and the parallel dimension. But you don't want to say who this person is?
- D: I can give you some hints. He is Russian and I can give you something interesting else. You know about the Russian Imperial family – you know that they were executed. Everybody thinks that Anastasia was the one who got away – actually it was Alexis who got away. The boy. He was brought to Great Britain and his descendants are still alive in the UK.⁵
- D: I think there was a deal by different sides to arrive at this situation. This person knew Alexis – they were close.
- K: Do you have any Russian descent or blood line in you?
- D: No.
- K: Is there is some reason why they chose you to approach?
- D: I had been defrauded of a hell of a lot of money. They said we have chosen you because we know you have been defrauded, but you did not go negative. That is how they select certain people. That is one of the ways that they test people.
- K: And how were you defrauded – in what field?
- D: Lets say commercial. But then it was partly a karma thing because the person whom I had defrauded, I had badly treated in Germany in the 1940s. I had maltreated him in the 1940s.
- K: To keep the thread alive.....
- K: Was this person that you mention, are they a sort of a mentor – are they in the government?
- D: No, not at all.
- K: So, how did you get into this position in the government?

⁴ Possibly, a certain notorious German 'geneticist' of the 40s could have found a way of turning off some suicide genes that humans carry around with them as a result of Annunaki design.

⁵ Arguably, the Rothchild faction were taken aback by the utter ruthlessness of the Rockefeller faction and decided to give Russian imperial bloodline a possibility to regroup on the off-chance that the Bolshevik revolution could ultimately fail.

D: I applied for a job. I was qualified. To some extent I was given the job a few months before I would normally have gotten it. The process was accelerated. But it wasn't involving anything negative. It had to do with someone being pushed to do the paperwork. He did it correctly but he was pushed to do it. It was above board, but he was remote influenced to do it because he is a bit lazy.

K: They wanted you in place? And who is they?

D: The off-world civilisation. But then I had done a very good favour for them.

K: What favour did you do for the off-world civilisation?

D: There is a connection device which you know about – surely you have heard about - and the Russian had made a mistake and I had to buy back this thing for him – this device.

K: Are you talking about the yellow book?

D: No, it was the '*larig box*'.

K: How did you buy back the device?

D: The Russian been a good entity but he fell prey to some understandable human failings which we are all prey to. He had spent a lot of money, went into debt and pawned the device to a money lender. The device ended up in a casino. It was held in custody there and began to have a lot of freaky effects on the surrounding environment. We managed to recover the device back.

K: Who is we?

D: The Russian and myself?

O: By normal means?

D: A bit and something else.

K: Some more remote influencing type thing?

D: Yes. The device began to have some crazy effects even around the casino. The sky in the immediate vicinity began to (laughs) change colours and all that.

K: What kind of device was this? Can you describe the device?

D: The device is able to translocate an individual from one point on a surface to somewhere else.

O: A communication device to get somewhere else?

D: Like literally through solid rock – lots of rock-800 miles.

O: So we are talking teleportation?

D: You could say that.

K: I think I know what this is. What year did you start in this? I don't know how long exactly you have been where you are? Do you have preliminary levels in the government? I don't even know your title.

D: Do you want to focus on the off-world stuff or the interaction between the off-world stuff and what is going on the surface?

K: When I am asking the questions, if you could just tell me a little bit about – it kind of characterises you in a certain way and it will help later – it just triggers some stuff.

D: Ok. In the hard world, I often interact between my country and the Eastern hemisphere of the globe.

K: Do you speak these languages?

D: None. But then for some funny reasons – I think it is karma – I get on very well with the Chinese.

K: Have you studied Eastern philosophy?

D: Yes, I have.

K: Do you meditate?

D: Sometimes.

K: At this point can you just tell me how long you have been in government service?

D: A decade.

K: And prior to that?

D: I was in other parts of the public service. I spent 5 years as a court lawyer doing very mundane work.

K: So you know law?

D: Yes..

K: Do you know international law or just the laws of your country?

D: I am familiar with International Law.

K: Now you can go wherever you like.

D: Ok. I would like to give you some mechanistic how . . . my perception of how the political situation on the earth is actually handled. In the cold war we were under the apparent threat of essentially MAD – Mutually Assured Destruction- the fear of nuclear annihilation. Now the situation is as follows: All these 3 sides referred to above are really scared of each other. What is worse than a nuclear war? A dimensional war.

K: My understanding is that it does pierce dimensions which is what is part of the problem.

D: These different groupings have a certain arrangements to keep a time line constant Now, what they are scared of. Say, a young guy who gets hold of an obscure occult book, puts into operation something he doesn't understand and breaks through the dimensions. There is someone you have heard who did that – who may have made such a mistake. Crowley did. He was an extremist. He tried everything and he actually broke through the dimensions. Now we have a very bad impression of Crowley, but he was not that negative. But then again, in part he was essentially an artist who wanted to put an end to the crass hypocrisy of the Victorian and Edwardian eras. As a wag once said, '*The artist must go very far, so that the ordinary man will go far enough.*'

I believe that to the end he was on humanity's side, despite whatever was put out against him by the *Daily Mirror*...

K: Yes, I also believe there was a dis-info campaign put out there purposefully. Actually, I believe by him. I believe he wanted that to hide behind [that persona]. I have studied this as well.

D: Now, A is more powerful than L⁶. The technology is 1000s of years ahead of us. We have to go back in understanding why A collapsed. A collapsed because its technology advanced much more ahead of its moral development. That is why you said in your last interview that – Courtney Brown said the buildings appeared to be in 1950s mode while the technology appears to be a 100 years ahead of us. Basically Atlantis had made a 1,000 years of progress in the equivalent one hundred years. That is what actually happened. The technology just went wild, beyond their ability to control it – it is my opinion that the Annunaki used the situation to help them collapse⁷.

K: But I understood there was also a hit coming from outside the planet – a meteor that specifically hit the island in a certain place – that was sent.

⁶ For a long time Atlantis and Lemuria co-existed, sometimes in a state of mutual belligerence, including the deployment of advanced weaponry and nuclear confrontation. The Indian '*Mahabharata*', despite the distortions that crept into it over time, more or less could said to be a chronicle of that era.

⁷ For an inkling of what the Annunaki look like, view the movie '*Immortal*' released in 2004, http://en.wikipedia.org/wiki/Immortel_%28ad_vitam%29

- D: Could be. But there exists Atlantean technology that is functioning. A case in point the Tunguska situation was averted because of the old technologies that were still functioning.
- K: Ok well, what we have been told that there are these buried installations: 1. in China, 2. off the coast of Florida and 3. one, I guess, in Russia. So you know of my interview with Valery Uvarov.
- D: He is correct.
- K: So it is still functioning. So, when you are describing the Atlanteans; are you describing the Annunaki?
- D: No.
- K: So they are 2 different civilisations. And when you are describing the Atlanteans do you understand who they are and where they came from?
- D: They are humans that began to advance rapidly in a technological sense.
- K: So they were humans. Do you know what planet they came from?
- D: Humans, but different from us. I know/perceive there is a connection to Mars. I think that what happened in Mars – there were a lot of genetic experiments. Their technology began to go a bit wild, mixing human genes with animal genes. It's like pigs: there is an argument saying that pigs have human DNA in them as a result of wild boar being genetically manipulated. A lot of these legends about Minotaurs and other chimera, there could be a kernel of truth to them.
- K: Sure.
- D: And manmade mermaids and so on. But on another track, the Reptilians, because of the Illuminati agenda, would rather keep technology – keep people in a bind – so that they can control and dictate how technology is drip fed into the planet's economy so that they can control the economy⁸. Are you familiar with a deceased Russian economist called *Nikolai Kondratiev*?⁹ He was around in the 1920s. He discussed the link between the leakage of technology into the economy and economic growth. So, by controlling whether or not we get technology the Controllers can determine the whole earth's technology and the direction in which it is going. There is a certain joint council who decided which technologies we are

⁸ For a very graphic view of the illuminati's manipulation of the Earth's history over the last three hundred years it is suggested that the reader view the movie, '*Cirque du Soleil: Worlds Away*' released on 21st December, 2012, with an educated eye. Ref <http://www.imdb.com/title/tt1792647/>

⁹ http://en.wikipedia.org/wiki/Nikolai_Kondratiev

going to get and which technologies we aren't going to get. The different sides have different perspectives.

K: You are putting the Annunaki and the Reptilians in the same box?

D: No, I am not talking about the Annunaki. I don't think the Annunaki are as powerful now as they are portrayed. They were powerful a long time ago but I no longer think they have the influence that they had before. There are still some of them left but I wouldn't say a more than a few hundred here, at the most. They are bully boys with residual influence. But then again there are a few who are more positively inclined.

K: You understand there is a distinction between the two races?

D: Yes.

K: Do you agree that the Vatican is run by the Reptilians?

D: Yes, I do, in part. Benedict was in a situation; he was aware of the NWO agenda and was not on the same lines. He was led to discover the Templar material and that is where he went 'off the reservation.'

K: When he discovered the Templar material – are you saying for some reason he became simpatico with their work?

D: The Templars were partially rehabilitated by the Church under Benedict. He also did a volte face over his perception of Buddhism, becoming more sympathetic to it. While he had formerly denigrated it, he was on the verge of making blatant overtures towards some sort of genuine dialogue with it. He also rehabilitated Teilhard de Chardin....whose basic philosophy was that humans are eternal spirits having a physical experience.

K: He was brought a bit more into the [Atlantean-Lemurian] fold?

D: Yes, he was.

K: Kind of a public relations campaign. But, Benedict, the one who has just left: what about his Nazi background?

D: He was an opportunist. He was a feckless careerist. But then eventually there was a good side to him. On another level he is spiritually evolved, despite his Roman Catholic conditioning.

D: An option which could be on the cards: although there is a 1% chance of this happening, is that the Vatican relocates to a central Mediterranean island at some point. It is always on the cards.

On another track, in terms of forthcoming Earth changes I think the sea level might rise all over the world.

Discussion about where to take the interview next.

D: You have heard of Terence McKenna right. The impression that I am getting is that the elite know that the time is up in the Western Hemisphere so they are preparing to run away with the resources. On the other hand, the off-world civilisations know what is happening and the better side is trying to help that it transits to a positive line. Then there is the debate on how this could take place. There is a lot of discussion about the financial system. When the system is under very extreme pressure all the sides rub together. You know how the 2008 crash was resolved in the short run? 20 billion Euros or Dollars had to be pumped back into the system and the money wasn't really there. There are certain gold mines owned by the US government and so on, which are not recognised and some gold from there was used.

K: In the Philippines or somewhere else?

D: I do not know the location, but some major governments have secret gold mines that they don't acknowledge. Some gold was used from there. Also, are you aware of parallel dimensions? Some gold was brought in from a parallel dimension where the value of gold is lower.

K: Why is the value lower? Is it because of their exchange system or the value of the gold itself is lower?

D: It's from a different time line. It is a different situation.

K: Yes, but you are saying that the different situation – there is no difference to the quality?

D: No, no difference. I don't know whether they could process it to eliminate or put it through some machines, but apparently some gold was brought in from the outside.

K: Who is crossing over? Is it some secret space programme?

D: No, no, at the very top level. The 3 groupings ultimately are able to transverse timelines with ease, just as the Annunaki do.

K: One of those groups?

D: The 3 groupings working together.

K: And you know this because . . . ?

- D: I was told a long time before the crisis had erupted that the banks periodically run out of money and they go to the 3 groupings and then they discuss how they are going to re-inflate the economy. The same thing happened in 1987. But the situation was much worse in 2008.
- K: What about right now; and this thing with the Germans and their gold?
- D: I am not sure how it is going to work out but I feel – there are different scenarios. One is that China closes its borders to the West totally.
- K: How does that help?
- D: It doesn't help the West directly in the short run ; it helps China.
- K: Ok, but my understanding is that China is actually more or less bankrupt at the time and they are very dependent on the West for staying afloat.
- D: China is sending people all over Europe with the instructions to study the welfare systems all over Europe. The idea is that they will turn China into a welfare state – its consumers will be more secure. They will not save as much as they normally save and consequently they will spend more and that will create a massive internal market in China. At moment China is generally dependent on exports, not on internal consumption. But it has already taken substantial technology from the West. Yet, this could change and China could impose import controls again and attempt to flourish by way of import substitution.
- K: In other words they would depend on the consumer consumption of their own people to fund their economy?
- D: They would create their own system.
- K: It sounds like a bad plan.
- D: But China always does that. It did it before. Actually it could turn out better for the West in the long run.¹⁰
- K: Did it before when?
- D: Reference the erection of the Great Wall of China. At one point they sent explorers out, but subsequently China closed itself when it felt it had the highest standard of living in the world.

¹⁰ A lot of the illuminate-led push towards globalisation is based on the economic theory of *comparative advantage*. However, there is a minority theory which is gaining ground i.e. the theory of so-called '*factor endowment*.' This theory would tend to encourage a reasonable amount of protectionism, and thus a return of the skills base to the West.

- K: But they weren't involved with the West then.
- D: They were always involved with the West. Chinese diplomats recall that China had received envoys from the Roman empire. When one deals with China one is essentially dealing with a 6,000 year old bureaucracy, which sometimes has the perception that the EU is a possibly forlorn attempt to recreate the Roman Empire.
- K: So get back to the story that we are creating here. The interaction btw the off planet – the Atlanteans that are here, are they known as the Illuminati?
- D: In part yes. There is an interaction with one group of Atlanteans and the Illuminati but I don't think the main thrust of off world Atlantis is negative. I don't think that they are the negative. It is the negative part of the Atlanteans that is pro illuminati, not the broad thrust.
- K: They would in theory be at war with each other.
- D: But the Atlanteans were infiltrated by the precursors of the Illuminati, i.e. the Atonists¹¹.
- K: Who are they?
- D: Akhenaton – that sort of philosophy, towards the end. Look, imagine...
- K: That is the Annunaki side.
- D: Yes. But they were pushing for a certain trajectory...what we know now as the New World order, previous to amalgamation into a Galactic Federation.¹²
- K: So you are considering this the positive side?
- D: No, I am not saying that. Imagine the US at the moment, the US, the Western sphere is at present illuminati dominated, it doesn't mean that all Americans\Westerners are bad or whatever, just parts of their respective governments Imagine, the Atlanteans are in a situation, they are fighting against Lemuria, or the Ancient Greeks. At the very pinnacle of their power they just collapsed. And this is what is happening in the US at the moment, it is reaching a peak, and it is at the point of collapse. No doubt, the real national and entrepreneurial spirit of America could recover rapidly once it detaches itself from its so called 'empire' which is draining it. Take Russia, it appears to be at least somewhat on the road to recovery after having it ditched its [Soviet] empire.

¹¹ Ref. Michael Tsarion's work on this point.

¹² The Federation flag/ star chart displayed in the last few frames of the latest Star trek movie entitled, *Into Darkness*, may be revealing...

- K: Do you know where the Atlanteans are in the governments around the world at this point? Do you know who they are? Let's say, Rothschild: who is he aligned with?
- D: Negative side of the Atlanteans.
- K: The Lemurians: are they the Chinese? Do the Chinese leaders consider....
- D: It's mixed. Chinese politics is not like Western politics. There are a few different groups. The Triads are the Eastern equivalent of the illuminati.
- K: You have the Nationalist Chinese, you have the Communist Chinese. That is the biggest division.
- D: No, not quite. It's different groups, You have the Triads, you have the Chinese traditionalists, You have the Maoists... it is a combination of groupings. There are dozens of secret societies operating in China.
- K: Isn't the Communists, which I suppose would be the Maoists, aren't they running China at this time?
- D: Don't think of the government of China as being homogenous, this is what Western media puts out. It is just not true. In fact there is a very close similarity in the way that the internal factions in the Chinese government cooperate together which corresponds more or less to the functioning of the factions within Japanese politics¹³. Don't forget that Marxist communism is merely a very recent Western import to China.
- K: But there has to be some leadership in a country
- D: Yes, but it is a coalition of different interest groups. The illuminati have some control over the government but they don't have total control. Now the Chinese are very nationalistic.
- K: But do they align themselves with Lemuria? These groups in general – are they even aware of Lemuria?
- D: No, no they are not. But under the surface there is a connection to Lemuria.
- K: So, you named 3 groups. You named the Reptilians
- D: The Reptilians are closest to the Illuminati. They are the real entrenched power. Now do you know where the Reptilians came from?
- K: Draco

¹³ The Shogun mini-series offers an interesting historical insight into illuminate/Jesuit infiltration of Japanese politics. Ref. <http://www.moviesunlimited.com/musite/product.asp?sku=D48241>

- D: Not only. The earth's gravity is not constant. The dinosaurs had at some point involved into a humanoid species. When the earth's gravity increased they went elsewhere. The earth expands by 1 inch every year, takes on mass inter-dimensionally and becomes heavier¹⁴. The dinosaurs could not exist on the Earth's surface because they were much too heavy. This is why there are all these bizarre academic theories saying that the dinosaurs used to live in lakes in order have their weight partly supported by the water etc. They do not make sense.
- K: Aldeberon. Are you aware of Aldeberon?
- D: Yes.
- K: So some of the Nazis certainly align themselves with Aldeberon at this time. So are you saying that some of the influence comes from Aldeberon.
- D: I am saying that some of the influence comes from the intra-dimensional terrestrial evolved species.
- K: From where?
- D: From here. From a dimension very adjacent to ours.
- K: But they are descendants from elsewhere.
- D: I am not excluding their interaction with other extraterrestrial races groups. The other 3 groups interact with outside. So have you have A and L interacting with the Pleiadians up to a point.
- K: So, let me ask you this. Are you familiar with Africa and the things that Gordon Douglas was saying about Africa being sold to a group probably coming in from Aldeberon, the Chinese have been building cities in Africa to prepare for this and that all the countries in the world are prepared for this and are aware that this deal has been made to basically clear out Africa and to allow this race to come on to this planet
- D: I don't rule this out, but I think that the Chinese are basically interested in securing food supplies, minerals and energy for their population.
- K: Your sources haven't made you familiar with this information about the possibility of opening up Africa to an incoming race. They haven't told you about that?
- D: No.
- K: Before I talk to you about it this minute, did you know about Gordon Douglas?

¹⁴ Ref Keith Hunter's work.

- D: Yes, I had heard this, but I can't verify it.
- K: Because you wanted to do an interview – let's cover what you want to.
- D: What I want to do is basically bring along the idea that we are being guided by a previous civilisation which does not want us to make the same mistakes that we made previously during its progression.
- K: But you are aware that we are going to war in Syria and that they are already bombing them and doing crazy things over there? So, do you have any information – do these groups, do they have... are the US more aligned with one group than another? Is Russia more aligned with one group than another?
- D: I would say that in America the Illuminati have more influence.
- K: The Reptilian Illuminati? Or the Atlantean Illuminati
- D: It is one group basically. I would say the Reptilian Illuminati have more influence. Russia was once under Reptilian control, but it slipped out of it¹⁵. China is a mixed situation – it is half in and half out. Japan used to be under Illuminati control, but I am not sure whether it remains so. The leadership was.
- K: Do you know that the prophecies that Japan is going to sink very soon and that they have to make provision for the people and they have to go to the Kamchatka regions and that they have to basically...
- D: I am aware of that.
- K: Is the Chinese government consciously aware of this?
- D: I am aware that they are building cities in China. There are many empty cities...
- K: Many people say that they won't go to China??????
- D: Possibly. Although unlikely as it seems at the moment on the surface, there could be a rapprochement between China and Japan.
- K: There is definitely a very strong effort to destabilise the Middle East right now.
- D: Yes, but in the next year all this is going to be forgotten. In the next year, the focus is going to be in the US. We were informed that America is going to lose its Empire.
- K: Due to what?
- D: Over extension. Because the Illuminati is using America against America itself. Draining of all the resources in all the wars of empire and so on. The partial collapse

¹⁵ Read *Red Symphony* by Henry Makow : <http://www.henrymakow.com/000275.html>

of its currency. This is not a new thing. We have been there before. Reference the collapse of Rome with the Roman Imperial government reducing the amount of gold in its coinage to the extent that even its own treasurers did not want to accept Rome's own coinage.

K: They are taking it down economically right?

D: Yes.

K: The Secret Space programme seems to be orchestrated by the Americans – there seems to be a real issue with that – they seem to have a stronghold on that – which seems to be their only ace in the hold to keep them – at least the group that runs America in any kind of sense of being able to hold on to their Empire. Is there anything to do with geophysical earth changes.

D: If you bring me a piece of paper and a pen I will explain that¹⁶.

BREAK:

PART 2

D: Our whole solar system revolves around another star system which is Sirius. Now, the models we have of planetary motion are not quite correct. The sun moves like a comet around Sirius taking 26 000 years. 25 500 or so years – this is the so-called Great Year. When it moves it creates a wake. And the planets are orbiting in a coma trailing in spiral mode behind it, with the coma being more in the nature of a vacuum than interstellar space. Now, the solar system is about to pass through denser material, so the coma is about to contract inwards. The planets are going to be pushed outwards, away from the Sun and the asteroid belt is in the process of being dislodged this is why we are getting these waves of incoming asteroids. Now, to prove this model I can point to one thing: do you remember when they launched the Voyager spacecraft? Do you remember they said after a certain point the craft began to slow down. This is because they were no longer in the coma and are now transiting the denser interstellar space. So the Earth's year is about to increase because we are going to be pushed away from the sun. At some point the Earth's year was 300 days, gradually in stages it reached 360 days and then 364. 24 at present. Subsequently, the Earth's year going to gradually increase to 369 days or whatever – but anyway the year is going to be longer.

This could take a few decades, but this is why we are getting anomalous effects with the observation of the moon etc and the meteorites coming in, we are going to get more of these.

¹⁶ View the following for a video representations, http://www.youtube.com/watch?v=0jHsq36_NTU , and <http://www.youtube.com/watch?v=o6jBK1ZV-qs&feature=related>

- O: The Russians have announced that what fell in to their country is part of a whole entourage. They have announced it on their news – whether it is true or not – they announced it.
- K: I have also had dreams about this – meteor showers. What about the 2nd sun – the binary sun system?
- D: We are a binary because Sirius is a binary to us.
- K: Not because there is a Brown Dwarf?
- D: No, this is not my impression so far, although I don't exclude the presence of other brown dwarfs in our vicinity . Sirius's twin is Earth. I am not aware of any 2nd sun coming in that would create a significant disturbance.
- K: Are you aware of moving through an energetic field?
- D: Yes. The solar system's progression around its companion, Sirius, takes five roughly equal phases would make up 25 000 year Cycle comprising the Great Year of the solar system's movement around our binary star Sirius, and this Great Year is made up of segments of 5 000 or so years each. 21 December was the point when our solar system began to move to transit through a slightly denser field.
- K: Have you heard about the Atlantic ridge bulging right now – the iron gasses are coming out of it? This was on the news.
- D: I wouldn't be surprised. Let's say the mass of the earth is smaller than it should be if it were totally solid.
- K: Have you been aware or in touch with the inner earth civilisations or any of the contacts with any of those beings?
- D: Yes, am aware of their existence.
- K: For example, you know the Romanian sphinx and you know that whole the story about the Transylvanian sun and moon rise? Did you read those books?
- D: I read parts of them.
- K: Radu Cinmar was head of the major think-tank in Romania and then he disappeared supposedly being invited into inner earth because of the installation that was found and because of his umbilical cord and how it was enlarged when he was born and his abilities and his high intelligence - are they the same people? Are you aware of any of these same people are in contact with you?
- D: The same crowd.
- K: Have you seen them physically?

- D: Yes.
- K: Do they look like us?
- D: What I have seen is something in-between a human and an Atlantean.
- K: What does an Atlantean look like?
- D: The intermediaries start to take on Atlantean DNA – or their DNA opens up. I have seen shapeshifting.
- K: But when you are talking about an Atlantean – how would their physicality differ from ours – are there any obvious ways?
- D: They are taller.
- K: Any other – colour of eyes, hair, any other physicalities?
- D: My impression is slightly blue skin and red hair, or a lot of hair that is tinged onto the red side.
- K: Is the blue due to the Sirian Annunaki?
- D: I am not sure.
- K: What about the greys – the other alien races?
- D: I know about them. I think many of them are future humans derived from our own lineage.
- K: The greys?
- D: They are coming back for DNA. Imagine if you have a photocopy and you start to photocopy it successively repeatedly – one copy derived another – eventually it degenerates. So they have to go back in time and dimensions to get more DNA so that they can continually get new bodies and replicate, successively downloading their consciousness into the new shells. Did you see the Gerry Anderson *UFO* series in the 70s? Note the blatant illuminati 'one eye' symbolism in the very first few frames of every episode. In the series one of the aliens (actually a future human) reveals that the 'aliens' bodies are degenerating¹⁷.
- K: This is also the Dan Burisch story.

¹⁷ Readers may find it fruitful to watch the *particular UFO* episode entitled *Survivor* and listen very carefully to the dialogue when the stranded alien is speaking to Paul Foster.

- N: Actually in the 2nd series they capture an alien and it was blue in colour and they found out that they were basically degenerating and they were stealing body parts basically.
- D: Now my impression is that at his Zurich Camelot 2011 presentation, Dan Burisch was talking from his heart within certain parameters he is locked in – he was not negatively motivated. He was giving 30% of what he knew.
- K: Are you aware of MJ12 and what they call Scion.
- D: I know MJ12.
- K: There was a transition – even within the time of Camelot when MJ 12 that turned – that Dan Burisch and the rest of them had to turn in a completely different direction. Were you aware of that?
- D: I am not aware of that. I can tell you as far as I can go. The Dan Burisch presentation at the Zurich Camelot conference was really important because the writing he showed on the presentation board very much resembled Arabic.
- K: I am aware of some ET writing that resembles Arabic
- D: My impression – now this is a very difficult situation because we are going to knock one of the major religions. My impression was that Mohammad was being channelled by a future timeline – now it doesn't mean that all the channelling was negative, but it was designed to take the humans on to that trajectory.
- K: That would make sense in some ways with what I know.
- D: If you study Spain – there is some evidence to show that at first even the Catholic Church allowed the Muslims to take charge in Spain – that was to displace the Visigoths that were in charge in then in many parts of Spain.
- K: What was wrong with them?
- D: They were Gnostics
- K: What was wrong with the Gnostics?
- D: There was nothing wrong with the Gnostics, but in the eyes of the global controllers, the mind control associated desert religions i.e. Atonist Judaism, Atonist Christianity and Islam, which are more or less of the same flavour, are better to work with in terms of steering humanity onto a predetermined time line.

Essentially, they wanted the Muslims in and I think that the abuse by Muslim religion in a massive way by the global controllers is ultimately being used in a massive way to steer humanity. There is some evidence to show that the very high levels of Masonic organisations – at high levels – the paraphernalia and iconography tend to

go very 'Islamic.' Normally, in any country the religious books inside Masonic lodge tends to be the book of the religion of the country - so in predominately Christian countries it would be the Christian bible. But then at a very high levels you see the masons wearing the fez hats and taking oaths on the Koran. My impression is that the ultimate dark controllers are using the religion to steer humanity's course. However, all this does not mean that Islam in its original form was that negative.

K: But you understand where the Vatican is taking that?

D: The Vatican is not a single faction. My impression is that the Jesuits are on the same lines as the illuminati, but I don't think Benedict and his associates, including Bertone, wanted this agenda ultimately. So belatedly, they attempted to move out of the rut but they couldn't or at least they preferred the Rothchild faction to the possibly more virulent Ruckerfeller faction.

K: So they wanted Benedict to leave.

D: Well, he was ultimately indicted for the paedophilia situation. That is why he had to leave

K: What about Francis and what he is doing?

D: My impression is that he is sympathetic to the negative timeline – that he is sympathetic to the Illuminati.

K: Very much so. In terms, of the groups that you are naming; for example, the Lemurians, can you describe them?

D: Short – shorter than the Atlanteans and their technology is a little bit more primitive than the Atlanteans. The Lemurians find it hard to reason, thus they tend to solve situations through accessing their memories. On a humorous note both groups perceive humans as being terribly smelly. Atlanteans have very beautiful cities, while Lemurians tend to be rough. At the moment they are at peace with each other, but there was a history of belligerence between the two sides. It is slightly easier to get access to the Lemurian dominated regions than to Atlantean dominated regions. But basically we are talking about an area equivalent to the size of Latin America, being mountainous that the general surface of the Earth, having lower gravity. There is a lower percentage of water cover to land mass than on the Earth's surface.

K: What area are they affiliated with? Are they indigenous...

D: They are indigenous. The Lemurians used to hold the eastern hemisphere of the globe physically and now they have a 'remote' but ever present influence on the eastern hemisphere of the globe.

K: Are you aware of Mu?

D: Mu and Lemuria are the same thing – pretty much.

K: But Mu is in the Pacific.

D: Yes, the eastern sphere.

K: So you are crossing over.

D: Yes, I am crossing over.

K: So when – are you aware of the information that I got from Douglas Dietrich for example? He worked in San Francisco – he is part Chinese/part Japanese.

D: I think I read one of his articles in *Nexus* magazine.

K: He talks about how angry the civilisation of Mu is right now – they are rising up from their undersea bases – they are very upset about Fukushima etc.

D: This is understandable.

K: So this is Lemuria as you understand it as well. So that being the case – at least what I have heard is that they are amphibious; they are related to the Chinese.

D: Some, but not all groups are amphibious?

K: How does this affect world affairs at this time?

D: Well, it is an upheaval. We have got to be prepared for rising sea levels, but I think they are going to take place gradually. We also have to be prepared for a creeping ice age in northern Europe because the Gulf Stream is collapsing. The energy that normally keeps it from freezing to the state that say Kiev on the same latitude as the UK, normally experiences, is being diverted to northern parts of America - which explains the very rough weather we have been recently getting in Western Europe.

K: But what about the - supposedly the Gulf situation with the nano oil- the black oil - you are aware of that?

D: Yes.

K: This was triggered by an off-planet race. You have heard about this?

D: I would not be surprised.

K: It is eating the bottom of boats out - it is very dangerous but it is also being put into one for the car oils. That it can be put into a human body and animate it. 25 Marconi scientists died.

D: The black goo.

K Basically what happened was that they were taken over and died in the most bizarre fashion - not even human.

D: But basically our consciousness is rising so we should not perceive of these as being real threats these acts are being carried out basically by forces who are afraid of losing control.

K: But do you know the race. One person is saying that it is associated with the Chinese - the race that brought in the black goo. Have you heard anything like that?

D: I have heard about the Velon but I am not sure what they are exactly.

K: The what?

D: The Velon. They could be a derivative of the Verdants. But I am not sure.

K: So when you said you were in touch with both positive and negative.

D: No - they work together.

K: How?

D: I will tell you off the record.

K: In your own life - in a more personal level can you talk about that? Your interaction with the various races?

D: Lets say, supposing there are so many officials present at a European Union meeting - if you studied the situation where there are 28 European member states present. you can start analysing very very, carefully - you would find that the majority would ostensibly be within Illuminati sphere of influence and a minority under joint Atlantean/Lemurian control... and a very small - a third group the orientation of which I don't understand, but whose access to technology is lower than that of the other groups and another group that is uncommitted. So within these meetings you would get these 3/4 factions. However, I have to qualify this by stating that you could get an individual who is ostensibly under illuminati/reptilian influence but still has a service to others orientation as opposed to a service to self orientation. When push comes to shove he or she could opt for a positive path.

K: And you are affiliated with one of those factions?

D Yes. But if you really start to perceive what is going on it starts to make sense.

K: But in terms of your affiliations would you say that you are with the good side of the Atlanteans?

D: I would hope so. At this point it is very interesting to study the behaviour Greeks and Cypriots.....

K: Which is why Greece must be attacked and taken down.....

K: There was always a discontinuity between Rome and Greece.

D: Yes. You have some elements of the Greek Orthodox Church which have a discreet contact with Atlantis and Lemuria.

K: Given this situation - are you aware of incoming planetoids - why the Vatican tried to squash Christopher Barbato and the Jesuits? Do you know about that? Do you know why they were.....?

D: Yes, I know all about that - my impression. I think there is a lot of knowledge in the Vatican library - a hell of a lot and they don't want that information out. Now, I

suspect many of the old books are from the library at Alexandria which were supposedly destroyed, are in the Vatican library.

K: Sure. I have always thought that. You got information about the destruction of the library at Alexandria and what is under sea of the coast of Egypt there.

D: On another track, we have to think of Atlantis not being a single city.

K: Sure.

D: It used to have a lot of satellite cities all way around the Western hemisphere. Very much like Phoenicia had in its day, many millennia after.

K: You listened to the Courtney Brown - my info is that he is wrong. That the drilling of Mount Toba that he was emphasizing is not how Atlantis fell.

D: I think Atlantis was sabotaged by the Annunaki. Because Atlantis began to threaten their monopoly on power and that is why we are being dumbed down. At one time the humans used to live a lot longer - they don't want us to live to 300 – 400 years of age because then we will start to accumulate so much occult knowledge that we would really start to challenge them. They just was biological robots to do the grunt work for them¹⁸.

K: But although that barrier has broken. There are some races or there is this longevity. There are some people who have broken through that. And for the most part they are say, affiliated with the Atlanteans or Atlanteans themselves.

D: Yes, but up to a certain point one can't really describe them as being human. In their progression the intermediaries DNA will gradually change. Their DNA will be able to regenerate itself at a 100% faster than the normal DNA than the normal body system does.

¹⁸ However, higher forces eventually intervened to indicate that as the humans have a 'piece of God ' within them' , they should be protected.

K: In terms of what is going on here and what you wanted to tell me.

D: Ok - one of the intermediaries I think is St Germain.

K: And have you been in contact with him?

D: No, although I suspect that he may have had contacts with the movie industry.

K: And how do you know this?

D: If it looks like something and acts like something ... it is that.

K: Yes, I have had a lot of information come at me from that direction.

D: But I think it was a joint decision by the Illuminati and the good side of the Atlanteans to establish America. A joint thing.

K: But now they are taking it down. But know you are hearing that it will be invaded - it will be broken up?

D: I think there was one plan to turn it into a North American federation. I am very suspicious of the UN. I think that the WWII was not really fought over crushing Nazism brutality per se - I think it was fought over Hitler – the Germans had gone off the reservation by printing their own money independent of the Rothchild banking control - and that really got to them. And the other idea was to set up the UN as a milestone on the road to a global government and another thing was to set up the state of Israel to help orchestrate events¹⁹.

K: Is it your understanding though that there Israel there is a very strong Annunaki faction?

¹⁹ Note that the UN logo incorporates 33 segments, indicate of Scottish rite masonry .

D: I don't know that. I believe that the Israelis are ultimately being used by the Zionists.

K: Can you describe exactly what is going on the planet right now that to some degree is being orchestrated off-planet?

D: I think the controllers are really rushing - they had a 5/20 year plan to get everything under world government control - and they are losing it. It's like trying to drive a car by taking off the steering wheel and replacing it with a wrench. You are trying to steer in a crude fashion. When you do things in rush you make mistakes and lose control. They are trying to start a war in Syria - they are trying to do this and that it could be that it is not going to work for them

K: I would agree - but what I am really asking you is what are your contacts telling you? Is this what your contacts are telling you?

D: They are telling us not to panic. It could be that the control is going down - the suppressed technology is being released and eventually this will invigorate the world's economy.

K: So your contacts haven't mentioned anything other than earth changes and a rising sea changes that are fairly gradual as being anything hugely cataclysmic?

D: No, no - it is not going to be anything that drastic - or that negative. We have to take it in our stride. However, at some point the whole of the Earth including some of the hidden dimensions, will unite ...but more on the lines of the *Law of One* as indicated by the Ra material as opposed to the New World Order scenario.

K: But you were really propelled to tell me some things today right?

D: The message is not to panic basically. A lot of people are going to have to do a lot of soul searching next year - starting next year.

K: Which people?

D: The alternative media and so on - because the established media is going to gradually lose control - people are going to have to look for answers and they are going to have to turn to the alternative media, as their governments and religious leaders will not quench their search for the truth.

O: What is the difference between what is going on now and what is going on next year? Why would they suddenly look for answers? Is there an event that triggers this change?

D The banking system is about to get a little bit worse initially but it could be managed.

O: What you are saying is that the economy is not just happening, but it is something that is being managed?

D: Yes, the dollar was originally set up to collapse round about now.

O: So are we going into the gold standard in some form?

D: There could be other replacement currencies circulating. *Bitcoin* might actually work and some other ideas might pan out.

K: Are you aware of the movements of the Iraqi dinar:

D: Yes

K: Are you aware of the gold in the Philippines and the frequency fence and the beings that are guarding it.

D: I am aware of the gold in the Philippines, but not aware of any frequency fence.

K: Some say that the gold in the Philippines is no longer there. Have you heard anything about that?

D: Yes - it has been taken to different places. Some of it is still there - some of it has been moved.

K: In terms of the US economy - do you hear of anything specific because we know it is like they are taking it down gradually?

D: They don't want a totally panicky situation The negative side don't want a situation like in the late 20s early 30s when they miscalculated.

K: So they don't want a crash?

D: They want a controlled crash. But they don't want a situation where even the integrity of the system will be challenged. In the 20s and 30s there were many riots in America that never came out in the mainstream news²⁰. If you look at the internet you will see footage of real big riots - they do not want a situation like that.

K In other words - there is a real big deal in America about the FEMA camps and things like that - they are obviously making plans. Do you think that they will just not be used?

D: I don't think so.

K: In terms of?

D: I think some elements in the US army - I think eventually the white hats will intervene.

K: When you say eventually within the next year or two?

D: Could be next 4 years, but eventually they will intervene?

K: In this scenario that you drawing here, do you see anything that is coming up very clearly that has to do with the transfer between parallel earth and this earth?

²⁰ <http://www.youtube.com/watch?v=exuGv3HsV-U>

D: There exist parallel time lines and there are 4 major ones. there is ours... there is a scenario where the Germans one the 2nd WW, 3rd one in which the humans are a bit more traditionalistic - still have castles and have zeppelins for moving around from point to point. Our scenario is a bit more positive and there is one which is a bit more jumbled up. You know you see in the pyramids freaky animals with funny shapes... that is because the Egyptian priests were directly looking into that option. Now, it is easier for us to move into option 2 where the Germans won the war than for the ones in that option to come into our dimension.

K: But this is already happened in Project Paper clip... the Nazis are running the...

D: Yes, because there are karmic bleed throughs.

K: You said your contact is part of the scenario - part of the longevity programme, but that it also has part to do with a parallel timeline.

D: Yes, but the improvement in our planet will also be linked to a more positive situation affecting the other parallel time lines as well.

K: But Dan Burisch has also said that....

D: Ok. May I expand a little bit on this point? In the *Times of London – the London Times...* in the 80's there were a lot of alternative stories about what would have happened if the German's had won the war. The alternative history stories were based on the real other time lines. Like Albert Speer taking over after Hitler - say starting an arms race between America and Germany - America had not joined the Second World War in that time line. These - sometimes these stories are leaked as they were based on reality.

K: Sure. Have you seen the TV series *Fringe* - talking specifically about the parallel.

D: Yes, yes that is correct.

K: So, given the very strong efforts at this time to destabilise the Middle East...

D: The idea is to pit the Sunnis against the Shiites, and thus create a World War 3 scenario.²¹

K: Are you being told it will be successful. Are you being given any information about this in any way? About Syrian, Iran, Israel.

D: What I am getting is that the mass media will eventually transfer its attention

K: ...on to the US mainland because of the collapsing economic situation?

D: Not the collapsing, the reforming. This is something positive. It is a process.

K: Have you seen Obama leave office for example?

D: 3 or 4 years ago some elements of the negative side were not happy and they were trying to remove him but somehow it didn't really quite pan out.

K: So you think he will stay in office?

D: I am not sure. But what I see is this, I see the people eventually displacing certain powers-that-be in the government.

K: Have you seen in other words a coup?

D: No – rather a passive displacement process. I will give you my version of the real history of the 20th century – it is going to be really controversial. And the late 19th century. The entire effort of the 20th century was to create an oil and banking

²¹ Refer to the very interesting Red Ice Creations broadcast [William Engdahl - War in Syria & Manufactured Conflicts](#), 2nd September, 2013.

monopoly and 2. To keep the anarchists out of government. The only real threat were the anarchists. The communists were always under some sort of control. If the communists had not been financed in 1917 to stage the Bolshevik revolution, the anarchists would have taken control. If you examine what happened in the Spanish civil war the whole – the BBC propaganda was specifically directed against the anarchists.²² Because the communists at the end of the day were Rockefeller created and always ultimately subservient to the Rockefeller/Rothchild tandem Nothing has changed. In the 19th century, Russia was the world's largest oil producer and the Rockefellers didn't want the Russian oil supremacy to continue as they wanted a monopoly for themselves so that is why they financed Trotsky to stage the 1917 revolution.

K: But they have made a comeback.

D: Yes, but it is not longer under Illuminati control. Even though they do dreadfully odd stuff together at times like what happened in Poland a few years ago.

K: But really the bottom line is that Russia maintains a certain amount of control over Poland.

D: Because Polish population was a bit too big to be easily managed and too independent minded – it is a sort of an oddity – population is a bit large – 40 million and the Russians are always afraid of Polish nationalism and the Illuminati were as well. The Poles are a rather a Europe sceptic bunch, also...

K: You know the Billy Meiers prophecies.

D: No, I do not. I have heard of Billy Meier though.

K: Well, one of the prophecies is that basically Russia will run Europe.

D: Yes, its influence is going to increase. The hold that the Western Hemisphere has all over the world is about to decrease and the influence that the Eastern Hemisphere holds is about to increase. Russia is about to become more wealthy in relative terms. But I look at Putin as being a sort of a Russian Romanov rethread. He is a Russian nationalist at heart.

²² An interesting movie is Murder by Decree, http://en.wikipedia.org/wiki/Murder_by_Decree . The last few minutes of the dialogue are revealing.

K: But he seems to be playing a game. Do you understand the game that he is playing with Snowden?

D: Yes. The Russians are trying to – they are using Snowden to capture the hearts and minds of the West. You know what is going on with *Russia Today*. *Russia Today* is being used to increase Russia's influence over the West and they are doing it very, very well. They are letting all the US dissidents have their say over the media.

On another track, I can give you an example of an Atlantean/Lemurian intervention in Russia. Let say Atlanteans and Lemurians would have noticed that the birth rate in Russia had really toppled, they would attempt to make a legislative move in order to finance Russian women so as to redress the situation.

K: Why would they do that? Why would they want to boost the population?

D: To keep a balance. To keep an internal balance.

K: Between the powers on earth?

D: Not quite. Between the young and old within Russia in terms of internal demography. Now I will explain to you what happens before any significant election in any country. The Atlanteans, Lemurians and Reptilians, they have a problem in terms of gauging of how our society works. It rather like human anthropologists trying to work out the internal politics of a troop of monkeys that they are observing.

Thus, they use intermediaries in order to have an idea of what intervention should be done and what decisions should be taken. What happens is that a limited number of intermediaries are abducted with their own consent. Thus, in a pre-election meeting the soul intermediaries from the different factions would join together and would decide on what should be done and what should not be done.

K: So they have a meeting on the astral plane?

D: On the astral plane. This happens for example in European elections. But not only, for example, an important decision has to be taken about North Africa. You would get people in the know even from Italy for such meeting because they would have some sort of insight, besides North African intermediaries themselves.

K: Were you invited to such meetings?

D: I have been to such meetings. But the situation is contrived that one can only recall bits and pieces of whatever transpired when one wakes up.

K: In terms of who is running these meetings – the people at the very top level?

D: There would be some Atlantean, Lemurian and Reptilian representatives present.

Ok. Lets take a hypothetical case: let's say in order to stabilise Tunisia a decision is taken to increase the number of people in the army – to give young people some jobs.

K: In terms of your participation in these meetings – if you understand who is doing these interventions....

D: No you don't. They are masked. It could be that even you yourself are attending these meetings and are not realising what is going on.

K: I am sure of it. Ok. But what I am saying here is that, from the perspective of what you understand, what you have seen, I am interested in this so called leadership group – this mixture of positive and negative beings that would be participating in these meetings.

D We are talking about different levels.

- Thus, the in-between DNA intermediaries who would have a mix of the DNA of human DNA along with the DNA of the off world civilisations are permitted to attend certain meetings

K But again – if I would ask you to describe this group?

D: I couldn't. But you would know if you were at the meeting. You go to sleep at night, you fall asleep, that 8 hours has passed and you feel a little bit tired afterwards when you wake up as you were partly occupied elsewhere.....

O: When you say they are masked, do you mean literally or in a kind of vague way?

D: They are veiled. You don't really see what is going on.

K: This middle group then. Would we recognise them on a human level?

D: No, not really. But psychic would.

K: for example, St Germaine would he be in this middle group?

D: Possibly.

K: Crowley?

D: Yes.

K: Do you agree with Erin Rothschild that Crowley is still alive?

D: You know the answer

K. Ok.

D: But I don't think that he is negative. He is still a bit crazy in a funny sense. He acts as being rather greedy in terms of money – in order to give it all back, sometimes to charity – he is still a shaman...

K. But in terms of the sort of, the trade off in terms of this middle group. If some of these people are time travellers...

D: Some of them even change sides. You get intermediaries changing from one side to another. Some of them get very bored as well. When you start to live very long you begin to become very eccentric and start to do sort of oddities like flipping dimensions a little bit – entertaining and so on.

K: There seems to be – the new world order does seem to be making some headway on the planet this time, and they seem to be trying, especially in Britain, to clamp down on really – increase their police state. Now some of this might be a public display of might if you will.

D: That is what it is.

K: But, in the US as well, personal liberties have been taken away very rapidly.

D: Yes, but the shift is positive – this is just a last gasp.

O – They are still trying to take down the anarchists.

K – We are talking about direct attacks on the alternative media. Are you familiar with Michael Hastings – the rolling stone journalist who was killed in June in a very bizarre way ?

D - You will expect these things to happen.

K – But given that we are doing this at the moment. We have things like drones, we have things like we are being giving predictions of invasions by a robotic race that is coming this way, it may even be in our sector at this time.

D: Yes – but they are not happening.

K: I will give you an example. The London Olympics. I think they were all set to go with a fake alien invasion.

D. I really think that for a few seconds they even tried it during the Opening Ceremony but then someone told them to pull back because their graphics were not good enough.

N Was that visible on the opening ceremony?

D: Yes. If you go onto YouTube you will probably find it.

N I have a hi definition copy of it.

D They were about to start and then they pulled out at the last moment.

K Well it was said that there was a UFO sighting during that ceremony

D – That was it – they were probably going to take it further, but they couldn't

K - I am curious about your understanding of the Annunaki. Do you feel that you have been given information – or the information has been kept from you in this regard?

D: There is a lot of talk about them, but there are only a few of them left.

K: Have you been told about a commanding control centre in Phobos?

D: Yes.

K and you are familiar with the Clarke McClelland disclosures? Do you have anything to say about any of that?

D: Yes, The Annunaki live underground, are usually only partly clothed or down right naked. For the great part they are service to self in their orientation.

K Do you know about solar warden?

D: Yes.

K: Do you have anything to say about that?

P: I have said everything before – they, the elite, know the whole scenario is changing – That is why we are seeing films such as the *Hunger Games* and *Elysium*. They are trying to posit a future situation where there is a bifurcation in human society.

K: the balance on planet earth is changing but it is also said that – is it your feeling that the frequency is rising – so things like Fukushima – and the permutation....

D: I could point to other stuff....like Brussels being heavily chemtrailed, possibly on dates when important decisions are takenso that the various representatives from EU member states would be temporarily isolated from their higher spiritual connection when decisions are taken. ...I will give you an example ok – I work in a small government office. 20 years ago the employees would not have discussed these things amongst each other. But the alternative media is having an impact....it is making inroads. The younger employees are openly discussing things – say 10-15% of them – and they are tacitly beginning to influence the older ones too – so it is coming through.

K: But when I say – a rise in frequency. My theory is that this poisoning of the earth is an ongoing effort but it is not going to be successful, at least in that a certain portion of humanity, this level we are moving into, basically the 4th dimension and we are going to be out of....

D: Look, why are there all these rumours of this idea to reduce the population? Now, all of us individually have a slight psychic capability. Now when you have numbers -7 billion right – you are going to challenge the controllers... because consciousness will create its own reality right. That is why they want to reduce the population. That is what it is all about. As consciousness rises, it will create its own positive feedback. Will give you an example of what happened in Ireland. In Ireland in the late 60s the consciousness level began to rise and the Protestants and Catholics began to interact beyond the sectarian divide.

Subsequently, what happened was that the Illuminati manufactured the incidents like Bloody Sunday between the different communities to polarise the situation – to produce confrontation. We have to be aware of these games. Some people can point to the people who sparked these incidents.

K – Is there going to be a showdown?

D - There will be some showdowns, but my inkling is that there will also be clear indications that consciousness is rising. A case in point being the September 2013 refusal by the UK parliament to approve full scale military action against Syria.

O – I wanted to ask something about – you know how before you said that in Russia there was an intervention to increase the population – and now we are talking about the reduction – can you define it more clearly?

D: The positive side wanted a balance in the population. The planet can take anything between 20 and 40 billion people - there is no problem. What we can't take is parasites feeding off us, taking our resources for clandestine space programmes with objectives that benefit a very narrow class of human society. That is what we can't take.

O: When you are talking about those factions – the ones that want to increase the population and the ones that want to decrease the population - can you relate that to the groups?

D: A & L could recognise a healthy balance in the population, they don't mind – the R side wants to push the population down.

O: ...and the illuminati – where are they?

D: with the R.

K: ...in terms of your - how did this work in terms of did you come here purposefully to meet with me - did you know you were going to meet with me or where you going on instinct?

D: No, I did not – I was going on instinct. But I was informed that it was the right time. The comment was about *Camelot* – they said you can get very good information from *Camelot*, but there are a number of people who are being put on *Camelot* who

are a bit negative and say low quality – but you have to do something – if you are involved in something of this order it is impossible to vet incoming information to the point that it is perfect i.e. 100% – you have to take the good with the bad – it is a learning curve and nobody gets it right all the time. The way I see it that *Camelot*, along with *Veritas* and *Red Ice Creations*, is taking a leading role towards presenting information to the global public. It is up to the individual to sort out which jigsaw pieces are valid and where these fit and where.

- K: It is not so much that as it is purposeful in that if you don't display the dark and the light then people only understand one thing. And most people have some combination – and some more than others – Leo Zugami is a perfect example – he is much more on the dark – but you can see a lot from the dark by seeing this man on display and how he operates – so this is purposeful – it is understood in terms of a method of teaching. There is no good in not having people from the dark side.
- D. But some of the videos would have been ideal teaching tools – say if you had to give them to psychology students and task them with identifying who is telling the truth and who isn't and instructing them to study the body language.
- K. and more than that too – there is too much emphasis on body language in my opinion – there is what can be felt and what resonates because body language can be faked in my opinion.
- D. It can but only up to a point. One of the things that they teach one when someone is trained to be an agent is to remain in eye contact. Normally when someone is telling a lie the natural tendency is to maintain one's gaze, as the natural tendency is to avert one's gaze when one is fibbing, but one can't really hold it for more than half an hour.....
- K. But that doesn't really – again – it's just my personal opinion watching this dynamic. In terms of the overall picture with the Vatican and where they are going – you have heard of this recent decree that Francis put out that anyone under Roman law could be prosecuted. Do you understand that the reverse side of that is that?
- D: It is the Vatican losing control. Who established the Vatican?
- K. Ok. The Romans – but in a sense it is the US and the Brits who are the 'new' Romans at the moment. So what about the earth changes, the volcanoes, the earthquakes, the potential for tsunamis, even manmade.

- D. The impression that I am getting is that things are not as bad as they are making them out to be.
- K. But what about manmade disasters? Other things that might be coming along that might be – have you been told anything like that?
- D. No, we being told not to worry too much. They are there but not to worry too much. I think the high point this decade was the Japan earthquake and the Haiti...
- K: Why are they allowing Japan to go under? What is the motivation – do you know?
- D: It goes back a while. I don't think that they really expected that Japanese would have taken such a massive bite off the US economy in the 80s. Then they had the Kobe earthquake – that was set up by the Illuminati so that the Japanese would surrender their banking interests....other wise the illuminate timeline agenda would have been scuppered.
- K. Well these are continual threats to Japan – these things but at the end there is still this thing that this island is going to be taken down – that it's not going to survive the next even 10 years possibly.
- D: There is a problem, but I don't think that it is as bad as they are trying to make it out to be. The other thing is that Japan is an oil importer and at one point the Japanese had begun to explore free energy devices for possible mass production and I think that got to them as well. It could be that part of Japan is going to be affected by the earth changes but it also could be that they also trying to make it out that Japan is not a viable option – not a secure country.
- K. I also heard that Fukushima was to some degree the Zionists allowing this to happen so that there was a fight over uranium.
- D. I think Fukushima had been planned a long time back.
- K. There is also the issue that the Lemurian maybe more aligned with the Chinese and there is a very long antipathy between Japan and China.

- D. No, there is antipathy against Japan, s government – part of the government because it is under illuminate control but not against the Japanese. There is antipathy against the [Zionist]government of Israel – but not against Israelis. However, despite the history of belligerency between China and Japan....I can see the two joining forces in the future. As an aside, it is very interesting to watch the predictive programming in the recent James Bond *Skyfall* movie. In the movie the UK appears to be on the down swing while China appears to be on the upswing. Scotland appears to be frozen over, perhaps the result of the collapse of the Gulf stream, while you have a great eyed piglet representing the bad side of Atlantis featuring prominently throughout the movie and notably towards the end...this is indicative of the intention of the minority bad Atlanteans to someday attempt to return....²³
- K. But in terms of this take down of Japan – I am interested in what the Lemurian controllers – what their investment is. Because in a certain sense, if they are orchestrating things to some degree, trying to influence things.
- D The Japanese are basically partly of Lemurian descent – no one does not – as are the Chinese – they are not going to savage their own.
- K. Well in theory not but what we see happening is this poisoning of this continent – at least it is being said, and you agreed with me initially that Japan will submerge.
- D.. No no it will be threatened. My understanding is it is going to be in part threatened but it is not going to be something sudden.
- K. So you see it continuing to exist for say another 20 years?
- D. It is going to gradually diminish in size. But it doesn't mean that people cannot relocate. People move around from place to place all the time.
- K: Are you familiar with *Veterans Today* and Gordon Duff? Are you noticing that they are rising in influence and do you understand what is going on behind the scenes there?

²³ Note that the pig is a symbol of the negative side of the Atlantean grouping, [not the broad thrust]. Atlantean genetic experimentation had resulted in pigs being created as a result of human DNA into wild boars.

- D: Yes, Yes, I think it is a grass roots rise in consciousness. Take the UK you can see a lot of posters on street regarding army recruitment – yet they are finding it very difficult to find young people to go into the army to go and fight new wars.
- K: What about the underground bases, the super soldiers and the robotic soldiers and so on?
- D: The elite is going to be replaced by another elite. There is still going to be an elite, but the soon to be former elite want to run away from us.
- K: There are a lot leaving the planet – you are getting this?
- D: IT COULD BE.
- K: When you are answering my question is it because you have to say a certain amount and you can't say more or is it only because you know so much?
- D: No, I am trying to ... I am going to give you an indication . Wasn't there a book written '*The Time Machine*' by H G Wells. H G Wells had actually had a contact that really had exposure with time travel. You heard about that?
- K: Yes. I understand that.
- D: He saw the population splitting into 2 parts. This is what is going on. One part underground and one part on the surface.
- K: This is the Nordics and the Greys.
- D: Some parts of the elite have the notion that they are going to try and live underground –

- K. But there is also a faction going off planet.
- D. Yes, but they knew about it all along. So they deliberately brought about the creation of the US Federal Reserve – they went off the gold standard. Did you read the *Wizard of Oz*? What was it about all about? The gold brick road. The illuminati put out that book because they were criticising the American president of the day by implying that he was restricting economic growth by sticking to the yellow brick road and the yellow bricks are gold – they were criticising him for trying to maintain the gold standard – previous to them manipulating to have the Federal Reserve set up in the process abandoning the gold standard.
- K. So they went off the gold standard to fiat money?
- D. So that they could ramp up parts of the global economy by creating artificial wealth – and siphon off that that wealth to create parallel civilisations – so when the consciousness rises – they have somewhere to run to.
- K: So you are aware of groups going off planet and you are aware of elites leaving this is your understanding?
- D: Yes.
- O: Do you know where to?
- D: There is some talk of Latin America
- K: Absolutely, but it would be interesting as it seems that Latin America is very much occupied by the reptilians and the Aldeberon Nazis. So that is in an interesting combination. Because the Lemurians – whether they have allowed it to happen or not there has been a huge abduction, hybrid, alien programme in that area.
- D: It is interesting to note that Latin America is slipping away from US control. Consciousness is rising over there, too

K: Nonetheless, there has been strong – you see Lemuria as having a strong positive influence

D: Yes. I associate Lemurian intermediaries with having brought beneficial medical technology to the surface.

K: But the fact is that the Nazis have infiltrated that space. So is there a war of sorts btw the Lemurians and the Nazis or are they working together.

D: I don't think they get on very well together. Many wars are not fought directly – they are fought by proxy.

K: In terms of this interview, we don't have to keep going forever and I want to know where you are at so far.

D: My idea is to give you a positive message. There is something that can be done. They want us to see parallel dimensions and to get gradually acclimatised to the idea of human travel to other dimensions. But it has to be done in a way that will not shock the people. So it might be a good idea if you put out this situation on *Camelot* – saying look – we understand that there could be a case that people start to view parallel dimensions. For it to be done in a way that doesn't shock the general public. Followers of *Camelot* are being solicited to send in their suggestions. Then when the suggestions come in, copy and paste without disclosing who is sending them on to say a link right, and put the link out in general public – then this will be picked up right by some of the off world groups and they will work along. Because the problem is, they can't just gauge human behaviour accurately – it has always been a problem for them – this is why they always have to recruit intermediaries²⁴.

K: So as a sort of a market research programme – float this out there?

D: Yes – float it out and see what happens.

²⁴ A case in point: A lot of really deep soul searching among the various Groups and councils before a decision was taken to allow the humans access to nuclear technology in the Thirties and Forties.

- K. In a sense my time travel conference was doing this already – Ashyana’s Dean’s material also talks about this.²⁵
- D. The point is that a clear programme has to be created.
- K. In a sense *Fringe* was doing this.
- D. But *Fringe* was negative, wasn’t it...the elite were just telling us in our faces via Hollywood that they had been up to mischief and that by our acquiescence we were accepting what was being hidden in plain sight. But anyway sometimes the right thing is done for the wrong reasons.
- K. Ultimately, whether *Fringe* was negative or not was a good question... the parallel is more negative than the current one but that is actually the case.
- D. Yes, but I mean.
- K. In a sense was accurate – the crossing over was accurate.
- D. Illuminati are kabbalists but I think the release of this information could be done in a more positive way. A way that is spiritually enlightening.
- N. For the public maybe but not the film industry.
- O. – I wanted to ask you about the 4 dimensional parallel time lines. You made this assertion that there was one time line – the Nazis succeeding in the war is closest to us and the bleed through actually happens from that parallel reality rather than from the other two.

²⁵ Note that Ashyana Deane’s material is around 70 % accurate, and is a major advance of much previously released material.

- D. Yes, there are bleed throughs from all of them. There is a bleed through from ours to theirs. And the other way²⁶.
- O When you talked about it you mentioned that hits one is the closest?
- D. I think it is the closest. That is my impression.
- O How do you see it?
- P. Because there are people in that universe who are identifiable from our universe. For example our shadow selves as well. For example, you get Albert Speer taking over from Hitler in the 50s. But then the Nazis in the parallel universe, after they have conquered everywhere – they have done all ethnic cleansing that they have to do and they have become a bit more moderate. However, the people there look a little more 'gross' than we do, probably an effect of the lower gravity.
- O So in that reality there are very few Jewish people, black people etc?
- D: Yes, the scientists have not been born so the technological progress has been slower. The women are still wearing 1940s clothing – they started using jets as passenger aircraft about 10 years ago. The nose end of the jets are slightly reminiscent of the equivalent Heinkel bomber equivalent. Australia is smaller than it is in this dimension. The earth is slightly larger.
- O: is there British government in this reality talking to the British government in that reality? Does that exist?
- D: I can tell you this much. Britain was overrun by the Nazis.
- O: Because I have experienced this – that gives me this information.
- D: I wouldn't be surprised.

²⁶ Researchers may find it interesting to check out the *Institute of Parallel Studies*.

- O: If there is anything else – for example I can experience the bleed through – I can have visions of what is going on – and I am thinking if I can feel it then there must be the same kind of experiences between those who have a need to be in power.
- K: If you heard my time travel with this individual who has heard about these individuals who have crossed over back over here – in other words some of their scientist military people have been brought over here. They are not dead – they have crossed over in physical.
- D: There is a problem with our culture – because we are really afraid of death. In fact it is just a change of vibration of frequency. The problem is, I think when we die. Our souls are captured by an electronic soul machine and we are sent back and we are completely wiped memory wise. I think that the Moon is very interesting to study. There is a soul capture device on the Moon and we continually programmed by the media in movies like *Poltergeist* and *Ghost* to 'move towards the light' – the light is actually part of a soul capture machine that sends us back to be reincarnated. The 2009 movie *Moon* by Duncan Jones shows the game pretty clearly....maybe you might want to interview *Robert Morningsky* about this.....Maybe the best way for humans to dodge the process is to move away from the apparent holographic projections of Christ, Mohammed and other religious figures we typically encounter when we are in the crossing over phase of the dead transition experience, i.e experiencing the bardo.
- K: On a more esoteric level though the white – if you want to wipe your mind you make it all white.
- D: But then we acquiesce – we agree to come back.
- K: This is changing – partially because of the frequency and partially because they are coming in not forgetting. Lots of people haven't forgotten. I have memories – lots of people are able to pierce the veil much more.
- D: There is a control system between Saturn and the Moon. Saturn is controlling our time line – but progressively it is going to be hit by a lot of meteorites – the control system going to be damaged. It might not lose all its power, but it is going to lose some of it.
- K: Are you aware of the Norman Bergman research and the ships that are going in the rings of Saturn and are supposedly on their way here ?

- D: I am aware of his work. I don't know much more than that, but I am aware that the control system – the Saturn control system is going to take a beating – this is not a bad thing.
- K: Have you heard it said that there is a special portal on Saturn into the next dimension?
- D: I would imagine so.
- K: It may be the key to this other dimensions – certainly it might be a portal – there seems to be something very special and very specific to Saturn as a portal into something.
- D: Yes, I would imagine so.
- O: What are you referring to when you talk about the control that is in Saturn?
- D: Saturn is Chronos – Saturn is there to control our frequency. It is basically negative.
- K: Our perception of time for one thing.
- O: Who is controlling it?
- D: I would say some reptilian groups. Their aim of which I think is to dimensional level is to vampirise this whole system. Imagine you want to become a god – how would you go about it? You would try to capture other entities and materials and attempt to feed off them. To do that you would try to arrange to get everyone and everybody on the same frequency before attempting to scoop them up. Eventually you will run out of the energy that you have scooped up in the process... so you have to find new victims to prey on. It might explain the Western 'illuminist' fixation with time...a case in point the establishment of Greenwich Mean Time in the UK. This fixation on time did not exist in other cultures.

O: So you are hoping that this is what happens?

D: Yes, maybe they won't capture us this time. Perhaps we will be able to slip out of the net this time.

O: I listened to a news conference that scientists in NASA did they were explaining something similar to what you are talking about. They were talking about some planets in our solar system being outside of the heliosphere and how this will affect us. What you are saying here is that some planets will be outside of the cone or what I call the heliosphere – interestingly is what they were talking about – that we won't have the protection – you are saying the same thing – some of the planets are going to be outside of the protection.

D: They are going to be pushed back and they are going to be damaged by all the incoming stuff that is not in the cone.

K: They say there was time when the Moon was not here.

D: I know that it is semi artificial and that is part of the control network linked to Saturn. It is hollow – it could potentially float on water.

K: In terms of what we have been doing here – have you reached a place where you feel comfortable – or do you want to give more?

D: Maybe some other time I will be in a position to give you more.....Pleasures yet to come.....
